ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

BACKGROUND

In September 2021, the State of California enacted Assembly Bill 481, declaring the following:

“The acquisition of military equipment and its deployment in our communities adversely impacts the public’s safety and welfare, including increased risk of civilian deaths, significant risks to civil rights, civil liberties, and physical and psychological well-being, and incumbent of significant financial costs. Military equipment is more frequently deployed in low-income Black and Brown communities, meaning the risks and impacts of police militarization are experienced most acutely in marginalized communities.

(b) The public has a right to know about any funding, acquisition, or use of military equipment by state or local government officials, as well as a right to participate in any government agency’s decision to fund, acquire, or use such equipment.

(c) Decisions regarding whether and how military equipment is funded, acquired, or used should give strong consideration to the public’s welfare, safety, civil rights, and civil liberties, and should be based on meaningful public input.

(d) Legally enforceable safeguards, including transparency, oversight, and accountability measures, must be in place to protect the public’s welfare, safety, civil rights, and civil liberties before military equipment is funded, acquired, or used.

(e) The lack of a public forum to discuss the acquisition of military equipment jeopardizes the relationship police have with the community, which can be undermined when law enforcement is seen as an occupying force rather than a public safety service.”

To address these concerns, AB 481 mandates that every law enforcement agency:

- Create a Military Equipment Use Policy.
- Obtain approval for this policy from the relevant governing body.
- Publish the policy 30 days before the required approval hearing.
- Generate an Annual Report detailing the use of military equipment.
- Conduct a community engagement meeting within 30 days of submitting or publicly releasing the Annual Report.

Following these guidelines, the Alameda County Board of Supervisors adopted Ordinance O-2022-38. This ordinance added the Alameda County Sheriff’s Office "Military Equipment: Funding, Acquisition, and Use (AB 481) Policy" to the County’s Code of Ordinances as “Military Equipment Use Policy,” designated under section 9.45 in Title IX of the County’s Codes of Ordinances Manual. The ordinance became effective on November 20, 2022.

**ANNUAL MILITARY EQUIPMENT USE REPORT**
October 1, 2023 – August 31, 2024**INTRODUCTION**

The Alameda County Sheriff's Office (ACSO) retains and employs a wide variety of military equipment to assist in safely advancing its mission statement to "build a safer and stronger community through innovative and inclusive law enforcement practices." Although the inventory of military equipment is extensive, its mere possession does not justify its use for every incident.

ACSO recognizes that critical incidents are unpredictable and dynamic. A variety of military equipment options can greatly assist agency members in resolving these incidents swiftly and safely. The use of military equipment is restricted to certain instances and is only permitted for specifically trained agency members. While our military equipment procedures are comprehensive, they are not all-encompassing. There may be instances where unpredictable critical incidents require agency members to authorize the use of military equipment in a manner not specifically outlined in the associated agency directives. In these cases, the judgment of the incident commander, influenced by the totality of the circumstances, public safety, officer safety, civil rights, and information available at the time, will be crucial.

It is incumbent upon agency members to recognize the specific circumstances where military equipment should be employed to enhance the safety of both the public and agency members, and to bring a critical incident to a safe resolution.

This Military Equipment Annual Report provides a summary of the guidelines for using military equipment, inventory details, fiscal impacts, and complaints for this reporting period.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

OVERVIEW

Government Code 7072

A law enforcement agency that receives approval for a Military Equipment Use Policy under Government Code Section 7071 must submit an annual Military Equipment report to the governing body for each type of Military Equipment approved. This report should be submitted within one year of approval and annually thereafter for as long as the Military Equipment is in use. The agency must also make each annual report available on its internet website for the duration of the equipment's use. The annual Military Equipment report must include, at a minimum, the following information for the immediately preceding calendar year for each type of Military Equipment:

1. A summary of how the Military Equipment was used and the purpose of its use.
2. A summary of any complaints or concerns received concerning the Military Equipment.
3. The results of any internal audits, any information about violations of the Military Equipment use policy, and any actions taken in response.
4. The total annual cost for each type of Military Equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrades, and other ongoing costs, specifying the source of funds for the following calendar year.
5. The quantity possessed for each type of Military Equipment.
6. If the law enforcement agency intends to acquire additional Military Equipment in the next year, the quantity sought for each type.
7. Within 30 days of submitting and publicly releasing an annual Military Equipment report under this section, the agency shall host at least one well-publicized and conveniently located community engagement meeting. During this meeting, the general public may discuss and ask questions about the annual report and the agency's funding, acquisition, or use of Military Equipment.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

DEFINITIONS

Per Assembly Bill 481 and Government Code Section 7070(c)(1-15), the following items are defined as Military Equipment:

1. Unmanned, remotely piloted, powered aerial or ground vehicles.
2. Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers. However, police versions of standard consumer vehicles are specifically excluded from this subdivision.
3. *High mobility multipurpose wheeled vehicles (HMMWV), commonly referred to as Humvees, two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached. However, unarmored all-terrain vehicles (ATVs) and motorized dirt bikes are specifically excluded from this subdivision.
4. *Tracked armored vehicles that provide ballistic protection to their occupants and utilize a tracked system instead of wheels for forward motion.
5. Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
6. *Weaponized aircrafts, vessels, or vehicles of any kind.
7. *Battering rams, slugs, and breaching apparatuses that are explosive in nature. However, items designed to remove a lock, such as bolt cutters or a handheld ram designed to be operated by one person, are specifically excluded from this subdivision.
8. *Firearms of .50 caliber or greater. However, standard issue shotguns are specifically excluded from this subdivision.
9. *Ammunition of .50 caliber or greater. However, standard issue shotgun ammunition is specifically excluded from this subdivision.
10. Specialized firearms and ammunition of less than .50 caliber, including assault weapons as defined in sections 30510 and 30515 of the Penal Code, with the exception of standard issue service weapons and ammunition of less than .50 caliber that are issued to officers, agents, or employees of a law enforcement agency or state agency.
11. *Any firearm or firearm accessory that is designed to launch explosive projectiles.
12. "Flashbang" grenades and explosive breaching tools, "tear gas," and "pepper balls," excluding standard, service-issued handheld pepper spray.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

13. TASER® Shockwave, microwave weapons, water cannons, and the Long-Range Acoustic Devices (LRAD).
14. Projectile launch platforms and their associated munitions: 40mm projectile launchers, "bean bag," rubber bullet, and specialty impact munition (SIM) weapons.
15. Any other equipment as determined by a governing body or a state agency to require additional oversight.

*During this reporting period, the ACSO did not possess any items from the aforementioned categories.

Definitions for the Military Equipment Annual Report:

Alameda County Board of Supervisors (BOS): The governing body that oversees the ACSO and is responsible for approving all matters related to AB 481 legislation.

Alameda County Ordinance Section 9.45 of Title IX: Alameda County ordinance approves ACSO General Order (G.O.) 2.21.02 and the associated Military Equipment Inventory, hereinafter referred to as Ordinance.

Assembly Bill 481 (AB 481): The Assembly Bill that required a law enforcement agency to obtain approval of the applicable governing body, by adopting a military equipment use policy. Government Code Sections 7070-7075 are applicable.

ACSO Military Equipment Inventory: The types and total amount of military equipment that ACSO is authorized to purchase. This category represents what the agency is permitted to acquire, including all items that can be bought and maintained in stock as required.

Military Equipment Possessed by ACSO: The actual physical possession of military equipment items by ACSO. This refers to the equipment that the agency currently owns and manages, which is physically present and available for use.

Consumables: Items that can only be used once (e.g., munitions or chemical agents). Categories include:

- Ammunition - All calibers
- Diversionary Devices
- Chemical Agents
- Specialty Munitions (40mm and Less Lethal Munitions)

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

Reporting Period: The time frame for which each Annual Report covers.

- Subsequent Reporting Periods will run from 09/01 to 08/31 annually.

Special Response Unit (SRU): A designated group of agency members who are selected, trained, and equipped to work as a coordinated team. They resolve critical incidents that are too hazardous, complex, or unusual for first responders or investigative units. The SRU employs tactics and strategies that emphasize de-escalation, control, containment, and resolution to protect life and property. This unit is also commonly referred to as the SWAT team.

Usage: This term refers to any intentional or unintentional operation, launch, discharge, detonation, activation, ignition, or impact of specified equipment by a person or object in response to an incident that requires investigative or enforcement action. For vehicles, including unmanned aerial systems (UAS) and robots, usage is defined as the equipment performing a function that assists in the mission of the investigative or enforcement action.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

SUMMARY OF MILITARY EQUIPMENT USE

The following data represents the military equipment used by ACSO from October 1, 2023, through August 31, 2024. Certain equipment, particularly consumables such as ammunition, diversionary devices, and chemical agents, are used consistently throughout this Reporting Period and in ongoing training courses to maintain proficiency. Therefore, the date reported here reflects only the operational use of military equipment.

Military Equipment Item Used	Number of Times Used	
CTS #4431 - 40MM CS Powder Barricade	1	(Barricaded subject)
CTS #7290M - Mini-Bang Steel Body	39	(Search warrants)
DEF TEC #1425 - 40MM LMT Tactical Single Launcher	6	(Barricaded subject)
Def Tec #2292 - Ferret 40MM Powder Barricade Round, CS	7	(Barricaded subject)
Def Tec #6325 - Exact Impact 40MM Sponge Round	13	(Disarm suspect)
DJI Matrice 30T	95	(Aerial overwatch)
DJI Mavic Enterprise	2	(Aerial overwatch)
DJI Mavic 2 Enterprise Advanced	145	(Aerial overwatch)
DJI Mavic 2 Enterprise Zoom	31	(Aerial overwatch)
DJI Mavic Mini 2	26	(Interior flight)
DJI Mavic Mini 3 Pro (DJI RC)	8	(Aerial overwatch)
DJI Phantom 4 Advanced	8	(Crime scene map)
FN 303 LESS LETHAL LAUNCHER	1	(Disarm suspect)
FN 303 Projectiles (Pava/OC)	14	(Disarm suspect)
Ford 550 Mobile Response Vehicle – EOD	24	(Explosives sweep)
Ford E-450 Command Post (CIU)	3	(Search warrants)
ICOR Caliber T5	6	(Search of residence)
ICOR Mini Caliber Robot	5	(Clear structure)
LENCO Bearcat Armored Vehicle	24	(For protection)

All military equipment maintained by ACSO is intended to support law enforcement operations to safeguard the public's welfare, safety, civil rights, and civil liberties. Any military equipment used during the Reporting Period was consistent with this intended use and in accordance with ACSO's Military Equipment General Order 2.21.02. Attached as Appendix D - ACSO Military Equipment Tracking Sheets, you will find a detailed account of the military equipment used and the purpose of each use during the Reporting Period.

ANNUAL MILITARY EQUIPMENT USE REPORT
October 1, 2023 – August 31, 2024

ANNUAL COST & FISCAL IMPACT

The ACSO Finance Unit delivers financial and administrative support to frontline public safety services while ensuring the financial integrity of ACSO. They strive for excellence in services such as fiscal planning, cost analysis, procurement, contract management, audit, payroll, and accounting operations support. ACSO provides public safety services transparently, and this Annual Report includes details on the costs of military equipment, as well as how its procurement and funding consider public welfare, safety, civil rights, and encourage public input.

The funds spent on equipment are crucial for ACSO's ability to respond timely and effectively to public safety concerns, thereby enhancing community safety in Alameda County. The benefits provided by the current Military Equipment Inventory are significant and vital from a public safety perspective.

Before seeking authorization to purchase military equipment, ACSO considers several factors. These include the necessity of the equipment when no reasonable alternatives are available that could ensure the same level of personnel and civilian safety, and whether the military equipment is cost-effective compared to alternatives that can achieve similar safety objectives.

Most of the military equipment in the current inventory was acquired before the approval of the Ordinance, resulting in minimal expenditures on new items during this Reporting Period.

For the next 12 months, consumable military equipment acquisitions and costs will align with current agency replenishment schedules and policies. Purchases will replenish quantities only up to the amount previously approved by the BOS. Projected costs for consumables are detailed below each item in the Military Equipment Inventory.

TRAINING SUMMARY & COST

The use of certain military equipment items and related special tactics requires specialized training for initial certification, as well as mandatory re-certification. If an agency member does not maintain their certification, they are no longer authorized to use the associated military equipment item. Beyond the mandated training, ACSO conducts regular in-house, intra-unit training (e.g., SRU, EOD, UAS) to maintain a high level of proficiency. Participating in these ongoing training sessions offers significant tactical insights and enhanced skills. These training programs provide agency members with a curriculum designed to impart knowledge, skills, and enhanced capabilities, tailored to operational needs and law enforcement best practices. Funding for training comes from the existing ACSO budget or grants, unless otherwise indicated.

**ANNUAL MILITARY EQUIPMENT USE REPORT**

October 1, 2023 – August 31, 2024

ACSO has hosted the training courses listed below, allowing agency members to be trained and certified without any associated fees. This initiative ensures that our personnel receive necessary training without incurring costs to the agency.

During this Reporting Period, agency members attended the following training courses:

Less Lethal / Chemical Agents:

Course Presenter: ACSO Regional Training Center

Course Content: This 16-hour course is designed to prepare experienced peace officers as required by California Penal Code § 22820. This course covers an overview of OC, CS and smoke, FN303, delivery methods, decontamination, first aid protocols, legal issues and safety protocols.

Cost: N/A (78 student – ACSO hosted this class)

Total Cost for Reporting Period: \$0

Firearms / Tactical Rifle Instructor:

Course Presenter: ACSO Regional Training Center

Course Content: This 80-hour course is designed to train individuals to be Firearms Instructors. The course covers firearms knowledge, teaching techniques and lesson planning, range preparation, combat shooting techniques and safety. This course satisfies the training requirement specified in California Penal Code § 33220(b) and POST Regulation 1081. This course provides updated legislative content of California Penal Code § 835a.

Cost: \$937/student (11 students – in-house training)

Total Cost for Reporting Period: \$0

Firearms / Tactical Rifle:

Course Presenter: ACSO Regional Training Center

Course Content: This 24-hour course provides training in the operation, application, maintenance, and use of the agency patrol rifle. This course satisfies the training requirement specified in California Penal Code § 33220(b) and POST Regulation 1081. This course provides updated legislative content of California Penal Code § 835a.

Cost: \$339/student (23 students – in-house training)

Total Cost for Reporting Period: \$0

Firearms / Tactical Rifle Re-Certification:

Course Presenter: ACSO Regional Training Center

Course Content: This 4-hour course provides training in the operation, application, maintenance, and use of the agency patrol rifle. This course satisfies the training requirement specified in California Penal Code § 33220(b) and POST Regulation 1081. This course provides updated legislative content of California Penal Code § 835a.

Cost: N/A (50 students – in-house training)

Total Cost for Reporting Period: \$0

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

Special Weapons and Tactics (SWAT) School

Course Presenter: ACSO Regional Training Center

Course Content: This 80-hour POST-certified course provides training to SRU operators and Tactical Support Team members and includes instruction on diversionary devices.

Cost: \$1,031.00/student (4 students – in-house training)

Total Cost for Reporting Period: \$0

Hazardous Device School:

Course Presenter: Federal Bureau of Investigation

Course Content: New bomb technicians spend six weeks learning entry level bomb technician techniques and procedures. Students learn improvised explosive device (IED) components, construction, identification, and render safe procedures along with basic explosive demolition operations. Student certification ensures they will be operating from the same procedures as every other bomb technician in the country.

Cost: \$3,743.52/student (0 students)

Total Cost for Reporting Period: \$0

**ANNUAL MILITARY EQUIPMENT USE REPORT**

October 1, 2023 – August 31, 2024

SUMMARY OF COMPLAINTS REGARDING MILITARY EQUIPMENT USAGE

There were no complaints submitted to the ACSO regarding the use of military equipment during the 2024 reporting period.

However, during the development of the 2023 Annual Report, members of the public raised concerns about the use of multi-projectile impact munitions as less-lethal tools. These concerns were voiced in meetings with the BOS Public Protection Committee, at the Community Engagement town hall, and during Regular Board of Supervisors meetings. We have since engaged in several discussions with concerned residents, explaining that these less-lethal tools are vital for de-escalating potentially violent confrontations and providing alternatives to using deadly force.

Impact projectiles are a crucial component of our agency's less-lethal force equipment. Agency members are authorized to use impact projectiles in accordance with our policy and the overall use of force policy. Furthermore, Assembly Bill 481 mandates that law enforcement agencies in California regularly evaluate their military equipment to ensure it adheres to current safety and effectiveness standards. This evaluation includes assessing whether equipment needs to be updated or replaced as part of an ongoing transparency and oversight effort.

Members of the public may submit questions or concerns regarding ACSO's Military Equipment by emailing acso-mil-equip@acgov.org. Responses will be provided in a timely manner. During this Reporting Period, ACSO has not received any complaints via email from the public regarding the acquisition, use, or possession of Military Equipment.

Members of the public may also submit a Civilian Complaint Form, available on the ACSO's website. Once received, complaints are routed to the Internal Affairs Unit in accordance with our policy (California Government Code § 7070(d)(7)).

INTERNAL AUDITS AND COMPLIANCE

The Lieutenant of Support Services has been assigned as the Military Equipment Coordinator. Among other duties, the coordinator conducts an annual inventory of all equipment listed under the Military Equipment Inventory. There have been no reports of violations of the Military Equipment Policy during the Reporting Period, and internal audits have indicated no violations or misuse of the equipment. ACSO ensured that agency members complied with AB 481 and all ACSO written directives. Each division was also responsible for ensuring compliance with this bill. All potential violations will be referred to the Internal Affairs Unit for investigation (Government Code §§ 7070(d), 7072(a)).

SUMMARY AND RESPONSES TO MILITARY EQUIPMENT POLICY VIOLATIONS

There were no reported policy violations regarding Military Equipment usage during this Reporting Period.

**ANNUAL MILITARY EQUIPMENT USE REPORT**
October 1, 2023 – August 31, 2024**MILITARY EQUIPMENT POSSESSED BY ACSO**

The inventory listed below outlines the Military Equipment currently possessed by ACSO, detailing the type and quantity of each item. For comprehensive descriptions and capabilities of all permitted Military Equipment, refer to Appendix B—ACSO Military Equipment Inventory.

It is important to note that while ACSO had already acquired and fully paid for all the equipment currently possessed before the BOS adopted the Ordinance, only a limited number of new equipment purchases were made during this Annual Report. The associated costs for replenishing used equipment, along with maintenance and training expenses, are included for each item.

Please be aware that the quantities of items currently possessed by ACSO, as detailed below, may differ from those listed in Appendix B, which outlines what ACSO is authorized to possess. The quantities indicated below reflect the equipment held by ACSO as of the end of this Reporting Period.

Small Unmanned Aircraft Systems (sUAS) – Category 1

The average annual maintenance and battery replacement cost is approximately \$400 per in service sUAS.

Item and Quantity:

DJI FPV COMBO
Quantity: 1

DJI MATRICE 210 V2
Quantity: 1

DJI MATRICE 210 V2 RTK

COMBINED TACTICAL SYSTEMS #4431, 40MM CS POWDER BARRICADE, SPIN STABILIZED, 4.1" LONG
Quantity: 50

DEFENSE TECHNOLOGY #1425, 40MM LMT TACTICAL SINGLE LAUNCHER, EXPANDABLE STOCK
Quantity: 28

PENN ARMS #L140-4, GL-1 COMPACT 40MM SINGLE LAUNCHER
Quantity: 4

DEFENSE TECHNOLOGY #2262, FERRET 40MM LIQUID BARRICADE PENETRATOR ROUND, CS
Quantity: 62

DEFENSE TECHNOLOGY #2292, FERRET 40MM POWDER BARRICADE ROUND, CS
Quantity: 59

DEFENSE TECHNOLOGY #6029OC, 40MM AERIAL WARNING/SIGNALING MUNITION WITH OC, 100 METERS WITH PAYLOAD
Quantity: 10

DEFENSE TECHNOLOGY #6042, MUZZLE BLAST 40MM ROUND, CS
Quantity: 65

DEFENSE TECHNOLOGY #6064, MULTIPLE RUBBER BATON ROUND 40MM
Quantity: 182

DEFENSE TECHNOLOGY #6098, MULTIPLE WOOD BATON ROUND 40MM
Quantity: 70

DEFENSE TECHNOLOGY #6325, EXACT IMPACT 40MM STANDARD RANGE SPONGE ROUND
Quantity: 466

ANNUAL MILITARY EQUIPMENT USE REPORT
October 1, 2023 – August 31, 2024

FN 303 Less Lethal Launcher and Projectiles – Category 14

Item and Quantity

FN 303 LESS LETHAL LAUNCHER
Quantity: 23

FN 303 PROJECTILES - CLEAR
Quantity: 1,200

FN 303 PROJECTILES - INDELIBLE PAINT
Quantity: 1,825

FN 303 PROJECTILES - PAVA/OC
Quantity: 845

FN 303 PROJECTILES – WASHABLE PAINT
Quantity: 3,697

Launching Cup – Category 14

Description and Quantity

A 12-gauge gas launching cup that allows less lethal munitions to be launched from a 12-gauge shotgun when attached.

Quantity: 1

Cost: Estimated annual maintenance cost is \$200

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

PROJECTED ACQUISITIONS

ACSO will request approval to add the following items as projected acquisitions to the ACSO Military Equipment Inventory.

*Unless otherwise indicated, all costs listed below are per item.

Rifles Ammunition – Category 10

Description/Capabilities, Quantity, and Cost

***.308 WINCHESTER RUAG SWISS P Armor Piercing (196 GRAIN):** The most accurate armor piercing round. Because the core stays intact during penetration, it transfers extremely efficient residual energy to hard targets. Extended barrel durability due to patented projectile design. Ballistics matched to the SWISS P Ball, Target, Styx Action and Tactical bullet types.
 Quantity: 200
 Cost: \$2.30 per round

*On the original approved Military Equipment Inventory, ACSO erroneously listed RUAG SWISS P: .308 WINCHESTER MATCH TARGET, 168 GRAIN (LONG RIFLE) on the inventory. ACSO does not possess this type of ammunition. ACSO instead possesses the same quantity of .308 WINCHESTER RUAG SWISS P Armor Piercing (196 GRAIN) and is requesting this be approved instead.

Chemical Agents and Smoke Canisters – Category 12

Item, Quantity, and Cost

DEFENSE TECHNOLOGY #1032, FLAMELESS TRI-CHAMBER CS CANISTER
 Quantity: 50 (Previously approved for 24. ACSO is requesting 26 additional)
 Cost: \$46.25

DEFENSE TECHNOLOGY #1056, OC VAPOR AEROSOL CANISTER
 Quantity: 90 (Previously approved for 16. ACSO is requesting 74 additional)
 Cost: \$50.15

Light-Sound Diversionary Devices (LSDD) – Category 12

Item, Quantity, and Cost

COMBINED TACTICAL SYSTEMS #7290M, MINI-BANG STEEL BODY
 Quantity: 150 (Previously approved for 100. ACSO is requesting 50 additional)
 Cost: \$45.00

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

40MM Less Lethal Launcher and Rounds – Category 14

Item, Quantity, and Cost

COMBINED TACTICAL SYSTEMS #4330, 40MM CS LIQUID BARRICADE, SPIN STABILIZED, 4.1" LONG

Quantity: 100 (Previously approved for 50. ACSO is requesting 50 additional)

Cost: \$29.70

COMBINED TACTICAL SYSTEMS #4431, 40MM CS POWDER BARRICADE, SPIN STABILIZED, 4.1" LONG

Quantity: 100 (Previously approved for 50. ACSO is requesting 50 additional)

Cost: \$31.90

DEFENSE TECHNOLOGY #2262, FERRET 40MM LIQUID BARRICADE PENETRATOR ROUND, CS

Quantity: 100 (Previously approved for 62. ACSO is requesting 38 additional)

Cost: \$28.15

DEFENSE TECHNOLOGY #2292, FERRET 40MM POWDER BARRICADE ROUND, CS

Quantity: 100 (Previously approved for 59. ACSO is requesting 41 additional)

Cost: \$27.85

DEFENSE TECHNOLOGY #6325, EXACT IMPACT 40MM STANDARD RANGE SPONGE ROUND

Quantity: 1,000 (Previously approved for 557. ACSO is requesting 443 additional)

Cost: \$28.65

PepperBall Less Lethal Launcher and Projectiles – Category 14

Description/Capabilities, Quantity, and Cost

PEPPERBALL TAC-SA PRO LESS LETHAL LAUNCHER: A less-lethal launcher designed to fire .68 caliber pepper balls. This system utilizes compressed air or CO2 to propel projectiles containing chemical irritants. It is effective for crowd control, individual incapacitation, and deterrence, and can be used in various operational scenarios.

Quantity: 25

Cost: \$1,250 each

PEPPERBALL PROJECTILES: Completely dedicated to reducing lethality, the basis of the FN 303 concept lies in its unique projectiles. These .68 caliber, 8.5-gram projectiles utilize a fin-stabilized polystyrene body and a non-toxic bismuth forward payload to provide more accuracy and greater effective range than other less lethal systems. The primary effect of the projectile is trauma, which directly neutralizes the aggressor.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

LIVE X-PROJECTILE: This projectile contains a concentration of 5% Pava power, a hard plastic frangible sphere that is designed to burst upon impact. The projectile is excellent for direct impact, area saturation and riot management. This projectile is intended as an irritant for individual suspects, point-specific targets, or small-area denial.

Quantity: 2,000

Cost: \$3.31 per round

MARKING PROJECTILE: This projectile is intended for marking suspects and objects with an indelible pink paint solution for later identification, apprehension, or questioning.

Quantity: 2,000

Cost: \$0.89 per round

INERT PROJECTILE: It is intended for training, qualifications, and direct impact. This projectile is a hard plastic frangible sphere that is designed to burst upon impact.

Quantity: 2,000

Cost: \$0.67 per round

While some purchases and acquisitions can be anticipated, the unanticipated replacement of Military Equipment may be necessary due to damage beyond that of repair. Replacement of these items will be handled on a case-by-case basis dependent on operational and agency needs. These unexpected need-based acquisitions will be in accordance with the ACSO General Order 2.21.02 and AB 481.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

EQUIPMENT REMOVED FROM ACSO INVENTORY

In last year's report, covering the reporting period from November 20, 2022, to September 30, 2023, we noted that the items marked with an asterisk below were scheduled to be removed from the ACSO military equipment inventory. These items have since been officially removed and are no longer part of the ACSO active inventory. The updated ACSO military equipment inventory, reflecting these changes, has been attached to the General Order for Military Equipment.

The ACSO included these items from last year's annual report in this year's report to demonstrate our transparency and commitment to accurate resource management. Additionally, this allows us to highlight that although the ACSO is requesting increases for certain less lethal military equipment, the ACSO is simultaneously removing hundreds of munitions from the ACSO's inventory. This approach ensures all stakeholders are fully aware of the current status and availability of our equipment.

Equipment removed from the ACSO Inventory during the 2024 reporting cycle:

Small Unmanned Aircraft System (sUAS) – Category 1

Item and Quantity

BRINC LEMUR S,
Quantity approved: 6, but never purchased.

DJI INSPIRE 1
Quantity: 3
(Discontinued) Out of inventory

DJI PHANTOM 3
Quantity: 1
(Discontinued) Out of inventory

DJI PHANTOM 4
Quantity: 3
(Discontinued) Out of inventory

Chemical Agents and Smoke Canisters – Category 12

Item and Quantity

DEFENSE TECHNOLOGY #1090, STINGER 32-CALIBER RUBBER BALL CANISTER
Quantity: 122

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

40MM Less Lethal Launcher and Rounds – Category 14

Item and Quantity

DEFENSE TECHNOLOGY #6099, MULTIPLE FOAM BATON ROUND 40MM
Quantity: 93

***Equipment removed from the ACSO Inventory during the 2023 reporting cycle:

Firearms of .50 Caliber or Greater – Category 8

Item and Quantity

*.50 CALIBER BROWING MACHINEGUN – ACSO previously possessed them, but they were properly destroyed on 7/20/23. This item will be completely removed from the ACSO Military Equipment Inventory.
Quantity 2:

Rifle Ammunition – Category 10

Item and Quantity

*RUAG SWISS P: .308 WINCHESTER MATCH TARGET, 168 GRAIN (LONG RIFLE):
Quantity: 200
Replaced by .308 WINCHESTER RUAG SWISS P Armor Piercing (196 GRAIN)

Chemical Agents and Smoke Canisters – Category 12

Item and Quantity

*COMBINED TACTICAL SYSTEMS #9210, OUTDOOR 92 SERIES JET-LITE RUBBER BALL CANISTER (WHITE SMOKE)
Quantity: 20

*COMBINED TACTICAL SYSTEMS #9230, CS JET-LITE RUBBER BALL CANISTER, PYRO (WHITE SMOKE & CS)

Quantity: 68

*DEFENSE TECHNOLOGY #1088, STINGER CS RUBBER BALL CANISTER
Quantity: 189

*DEFENSE TECHNOLOGY #1095, RUBBER BALL BLAST CANISTER, OC
Quantity: 249

**ANNUAL MILITARY EQUIPMENT USE REPORT**

October 1, 2023 – August 31, 2024

40MM Less Lethal Launcher and Rounds – Category 14**Item and Quantity**

*COMBINED TACTICAL SYSTEMS #4553, 40MM .30 CAL STING-BALLS, SMOKELESS, 4.8” LONG

Quantity: 60

*COMBINED TACTICAL SYSTEMS #4557, 40MM SPONGE, SMOKELESS, SPIN STABILIZED, 4” LONG

Quantity: 118

*COMBINED TACTICAL SYSTEMS #4558, 40MM .60 CAL STING-BALLS, SMOKELESS, 4.8” LONG

Quantity: 60

*DEFENSE TECHNOLOGY #6025, BEAN BAG ROUND 40MM

Quantity: 13

*DEFENSE TECHNOLOGY #6097, STINGER 40MM 60-CALIBER RUBBER BALLS ROUND

Quantity: 300

*DEFENSE TECHNOLOGY #6320, DIRECT IMPACT 40MM OC CRUSHABLE FOAM ROUND

Quantity: 191

*DEFENSE TECHNOLOGY #6323, DIRECT IMPACT 40MM INERT CRUSHABLE FOAM ROUND

Quantity: 118

*DEFENSE TECHNOLOGY #6325LE, EXACT IMPACT 40MM EXTENDED RANGE SPONGE ROUND

Quantity: 64

*DEFENSE TECHNOLOGY #6326, DIRECT IMPACT 40MM MARKING CRUSHABLE FOAM ROUND

Quantity: 55

Compared to our current approved Military Equipment Inventory List, the quantity of 40MM Less Lethal Munitions has DECREASED by 357 rounds since their removal in 2023.

ANNUAL MILITARY EQUIPMENT USE REPORT

October 1, 2023 – August 31, 2024

CONCLUSION

ACSO has fulfilled the requirements set forth in AB 481 by creating G.O. 2.21.02 - Military Equipment, Funding, Acquisition, and Use, obtaining approval from the Board of Supervisors, providing an online resource for community complaints and engagement, and assigning the responsibility for the required Military Equipment Annual Report to the Lieutenant of Support Services. The Military Equipment G.O. is reviewed annually and published on the ACSO website. A community engagement meeting will be scheduled within 30 days of submitting the Military Equipment Annual Report.

This Military Equipment Annual Report reaffirms ACSO's commitment to transparency and information dissemination to communities and elected officials while ensuring compliance with the law. The equipment, resources, and training outlined in this report enable ACSO sworn staff to better protect our communities and enhance the safety of the public and our officers. Additionally, it facilitates the safe resolution of critical incidents. The equipment listed in this report, along with the required training, provides our sworn staff with the skills and capabilities to address critical incidents effectively.

The public has a right to know about any funding, acquisition, or use of Military Equipment by elected officials, as well as a right to participate in these decisions. ACSO strongly considers the public's welfare, safety, civil rights, and civil liberties when making decisions regarding how Military Equipment is funded, acquired, or used.

This Military Equipment Annual Report has comprehensively analyzed various types of equipment, their capabilities, and their potential impact on our communities. This evaluation also provides valuable insights into our Military Equipment, its purpose, usage, and fiscal impact. The equipment enhances operational effectiveness and efficiency, allowing for greater precision, reduced collateral damage, and improved situational awareness.

Furthermore, the Military Equipment Annual Report underscores ACSO's commitment to transparency and communication with our elected officials and the community we serve. As ACSO grows, there will be a continued need to update this report to stay ahead in an ever-evolving landscape. This includes focusing on sharing the knowledge, resources, and technologies we use to enhance public safety.

Lastly, this Military Equipment Annual Report complies with the requirements of AB 481 and demonstrates ACSO's readiness and effectiveness in confronting the evolving threats and challenges faced in the communities we serve, now and in the future.

Appendix A
ACSO General Order
2.21.02

GENERAL ORDER:	2.21.02
CHAPTER:	Organization, Management, and Administration
SUBJECT:	Military Equipment, Funding, Acquisition, and Use (AB 481)
ISSUED DATE:	September 23, 2022
REVISION DATE:	August 28, 2024
NOTES:	
RELATED ORDERS:	General Orders: 1.05 , 1.08 , 1.21 , 2.21.01 , 2.29 , 2.45 , 3.07.01 , 3.07.02 , 5.07 , 5.30 , 6.15 , & 6.16 SRU P&Ps: 3.03 & 3.04 OES P&P 4.01 CA Gov't Code Sections: 7070 , 7071 , & 7072 Penal Code Sections: 835a , 13652 , 30510 , & 30515
ATTACHMENTS:	<ol style="list-style-type: none"> 1. ACSO Military Equipment Inventory 2. Military Equipment Request Form 3. Assembly Bill 481 (2021) 4. CALIFORNIA PENAL CODE (PC) SECTION 13652 5. Government Code (G.C.) section 7070, subsections (c)(1) through (c)(16) 6. PC sections 30510 and 30515 7. Federal Defense Logistics Agency 8. Section 2576a of Title 10 of the United States Code 9. Special Response Unit (SRU) Policy & Procedure (P&P) 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents 10. SRU P&P 3.03 – Tactical Response Vehicles 11. PURPOSE: To establish guidelines and procedures for the acquisition, funding, use, and reporting of “military equipment,” as the term is defined in California Government Code 7070. This General Order (G.O.) **fulfills the requirements set forth in Assembly Bill 481 (2021). Requirements include, but are not limited to, seeking approval to procure, possess, and use military equipment, conducting annual reporting, maintaining inventory, and addressing public complaints, concerns, or questions** regarding military equipment.

POLICY: The Alameda County Sheriff’s Office (ACSO) may procure or possess, or use “military equipment,” as defined in Government Code 7070, only within the guidelines

established in Assembly Bill 481 (AB 481). This order **excludes** military equipment used **solely for** training or promotional/advertisement purposes.

DEFINITIONS:

CALIFORNIA PENAL CODE (PC) SECTION 13652 (AB 48)

- A. Pursuant to PC 13652(a), kinetic energy projectiles and chemical agents shall not be used by any law enforcement agency to disperse any assembly, protest, or demonstration, except as provided in PC 13652(b).
- B. PC 13652(b): Kinetic energy projectiles and chemical agents shall only be deployed by a peace officer that has received training on their proper use by Commission on Police Officer Standards and Training (POST) for crowd control if the use is objectively reasonable to defend against a threat to life or Great/Serious Bodily Injury (GBI), to any individual, including any peace officer, or to bring an objectively dangerous and unlawful situation safely and effectively under control, and only in accordance with all of the following requirements:
1. De-escalation techniques or other alternatives to force have been attempted, when objectively reasonable and have failed.
 2. Repeated, audible announcements are made announcing the intent to use kinetic energy projectiles and chemical agents and the type to be used, when objectively reasonable to do so. The announcements shall be made from various locations, if necessary, and delivered in multiple languages, if appropriate.
 3. Persons are given an objectively *reasonable* opportunity to disperse and leave the scene.
 4. An objectively reasonable effort has been made to identify persons engaged in violent acts and those who are not, and kinetic energy projectiles or chemical agents are targeted toward those individuals engaged in violent acts. Projectiles shall not be aimed indiscriminately into a crowd or group **of people**.
 5. Kinetic energy projectiles and chemical agents are used only with the frequency, intensity, and in a manner that is proportional to the threat and objectively reasonable.
 6. Officers shall minimize the possible incidental impact of their use of kinetic energy projectiles and chemical agents on bystanders, medical personnel, journalists, or other unintended targets.
 7. An objectively reasonable effort has been made to extract individuals in distress.
 8. Medical assistance is promptly provided, if properly trained personnel are present, or procured, for injured persons, when it is reasonable and safe to do so.
 9. Kinetic energy projectiles shall not be aimed at the head, neck, or any other vital organs.
 10. Kinetic energy projectiles or chemical agents shall not be used by any law enforcement agency solely due to any of the following:

- a. A violation of an imposed curfew.
- b. A verbal threat.
- c. Noncompliance with a law enforcement directive.

11. If the chemical agent to be deployed is tear gas, only a commanding officer at the scene of the assembly, protest, or demonstration may authorize the use of tear gas.

GOVERNING BODY

The elected body that oversees a law enforcement agency. For the ACSO, the governing body is the Alameda County Board of Supervisors (BOS).

MILITARY EQUIPMENT

Pursuant to California Government Code (G.C.) section 7070, subsections (c)(1) through (c)(16), and for purposes of this G.O., military equipment includes any of the following:

1. Unmanned, remotely piloted, powered aerial or ground vehicles.
2. Mine-Resistant Ambush-Protected (MRAP) vehicles or other armored personnel carriers. Law enforcement versions of standard consumer vehicles are specifically excluded from this subdivision.
3. High Mobility Multipurpose Wheeled Vehicles (HMMWV) "Humvees," two and one-half ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached.

Un-armored all-terrain vehicles (ATV's) and motorized dirt bikes are specifically excluded from this subdivision.

4. Tracked armored vehicles that provide ballistic protection to the occupants and utilize a tracked system instead of wheels for forward motion.
5. Command and control vehicles that are either built or modified to facilitate the operation control and direction of public safety units.

As described above, supervisor patrol vehicles based on standard consumer vehicles equipped as mobile command posts do not fall under this subdivision.

6. Weaponized aircraft, vessels, or vehicles of any kind.
7. Battering rams, slugs, and breaching apparatuses that are explosive in nature.

Items designed to remove a lock, such as bolt cutters, or a handheld ram designed to be operated by one person, are specifically excluded from this subdivision.

8. Firearms of .50 caliber or greater.

Standard issue shotguns are specifically excluded from this subdivision.

9. Ammunition of .50 caliber or greater.

Standard issue shotgun ammunition is specifically excluded from this subdivision.

10. Specialized firearms and ammunition of less than .50 caliber, including assault weapons as defined in PC sections 30510 and 30515.

The exception to this subdivision is any weapon that is a standard issue service weapon and any appropriate ammunition for said weapon that are issued to sworn ACSO members.

11. Any firearm, or firearm accessory designed to launch explosive projectiles.

12. Light and sound distraction devices and explosive breaching tools, "tear gas," or "pepper Balls."

Standard issued Oleoresin Capsicum Spray (OC/pepper spray) is excluded from this subdivision.

13. Taser Shockwave, microwave weapons, water cannons, and any Long-Range Acoustic Devices (LRAD).

14. The following projectile launch platforms and their associated munitions: 40mm projectile launchers, "bean bag," rubber bullet, and specialty impact munition (SIM) weapons.

15. Any other equipment as determined by the governing body or a state agency to require additional oversight.

16. Notwithstanding paragraphs (1) through (15), military equipment does not include general equipment not designated as prohibited or controlled by the Federal Defense Logistics Agency.

ACSO MILITARY EQUIPMENT INVENTORY (Military Equipment Compliance List)

A detailed list of the military equipment ***requested, procured, and used by the ACSO, along with its approval status will be maintained.*** The ACSO Military Equipment Inventory will be updated as changes are made, dated accordingly, and attached to this order.

MILITARY EQUIPMENT COORDINATOR

This title will be held by the Planning & Research/Accreditation Lieutenant.

MILITARY EQUIPMENT REQUEST FORM

An internal form used by Agency members to detail the requested military equipment item they wish to procure. This completed form shall be approved by the responsible Division Commander of the unit ***and then provided to the Military Equipment Coordinator.*** The Military Equipment Request Form includes all necessary information to comply with the requirements of AB 481.

TYPE

Each item that shares the same manufacturer model number.

ORDER: The Military Equipment Funding, Acquisition, and Use G.O. approval, requests, and annual report process will be **conducted** under the direction of the Management Services Division Commander and the responsibility of the Military Equipment Coordinator. **All processes will adhere to the parameters set forth in AB 481.**

- A. Approval Required: The ACSO shall obtain the approval of the BOS in a regular meeting of the BOS **before** engaging in any of the following **activities**:
1. Requesting military equipment made available **under** Section 2576a of Title 10 of the United States Code.
 2. Seeking funds for military equipment, including, but not limited to, applying for a grant, soliciting, or accepting private, local, state, or federal funds, in-kind donations, or other donations or transfers. The ACSO has authority to apply for funding prior to obtaining BOS approval in the case of exigent circumstances, but ACSO shall obtain BOS approval as soon as practical.
 3. Acquiring military equipment, either permanently or temporarily, **including through** borrowing or Leasing.
 4. **Collaborating with another law enforcement agency in the deployment or use of military equipment within the County of Alameda and the territorial jurisdiction of the BOS.**
 5. Using any new or existing military equipment **for purposes**, in a manner, or by persons not previously approved by the BOS pursuant to this Order.
 6. Soliciting or responding to **proposals for**, or entering into an agreement with, any other person or entity to seek funds for, apply to receive, acquire, use, or collaborate in the use of, military equipment.
 7. Acquiring military equipment through any means not provided in above sections 1-6. This includes acquiring military equipment through the various government surplus property programs (refer to G.O. 2.21.01).
 8. The approval process will be implemented for all military equipment obtained on or after January 01, 2022. No later than May 1, 2022, the ACSO shall commence a governing body approval process in accordance with this section, if ACSO seeks to continue the use of any military equipment that was acquired prior to January 01, 2022. If the BOS does not approve the continued use of a type of military equipment, the ACSO must not use the equipment beyond 180 days following the BOS decision, absent a later approval.
 9. All military equipment authorized for use by the BOS may be **operated** by any ACSO member **who is properly qualified and trained.**

B. The process for requesting a new military equipment item is as follows:

1. The member requesting the new military equipment item will complete a Military Equipment Request Form, **filling out** all applicable sections and obtaining **approval from their** Division Commander.
2. The completed Military Equipment Request Form will be submitted to the Military Equipment Coordinator.
3. **The Military Equipment Coordinator will upload the Military Equipment Request Form to the Agency's website at least 30 days prior to presenting the request to the BOS.**
4. **The Military Equipment Coordinator will arrange for the BOS to review the Military Equipment Request for approval through a Board Letter process.**
5. **Once the Military Equipment Request is approved or denied, the Military Equipment Coordinator will notify the Agency member who made the request and the approving Division Commander of the BOS's decision.**
6. **If approved, the new Military Equipment item will be added to the ACSO Military Equipment Inventory and uploaded to PowerDMS by the Planning & Research Unit.**

C. In seeking the approval from the BOS, the ACSO shall submit a proposed Military Equipment Use G.O. **as it pertains to the requested military equipment to** the BOS and make those documents available on the ACSO's website at least 30 days prior to any public hearing concerning the military equipment at issue.

Any proposed or final Military Equipment Use G.O. shall be made publicly available on the ACSO's website for as long as the military equipment is available for use.

D. The ACSO will provide the BOS with a detailed list of military equipment during the approval/requesting process (use attached Military Equipment Request form), including:

1. A description of each type of military equipment, the quantity sought, its capabilities, expected lifespan, and product description from the **manufacturer**.
2. The purposes and authorized uses for which the ACSO proposes to use each piece of military equipment.
3. The fiscal impact for each piece of military equipment, including the initial cost of obtaining the military equipment and the estimated annual cost for use and maintenance of the equipment.
4. The legal and procedural rules that govern each authorized use.
5. Required training for the use of each piece of military equipment, including any course required by POST that must be completed prior to any piece of military equipment being used.

6. ***The mechanisms to ensure compliance with this order are well-defined and outlined in the related General Orders and written directives referenced on page 1. The ACSO is responsible to ensure compliance and establishing legally enforceable sanctions for violations where applicable. The BOS is responsible for overseeing the ACSO's use of military equipment and ensuring compliance.***
 7. The procedures by which members of the public may register complaints or concerns or submit questions about the use of each specific type of military equipment, and how the law enforcement agency will ensure that each complaint, concern, or question receives a response in a timely manner **(See section.G.4 and G.5 below).**
- E. Annual Reporting: The ACSO shall submit an Annual Military Equipment Report to the BOS for each type of military equipment approved by the BOS. This annual report shall be the responsibility of the Military Equipment Coordinator and shall be submitted within one calendar year of the previous Annual Military Equipment Report.
1. The Annual Military Equipment Report shall be publicly available on the ACSO website for as long as the military equipment is available for use.
 2. The Annual Military Equipment Report shall, at minimum, include the following information for the immediately preceding calendar year for each type of military equipment:
 - a. A summary of how the military equipment was used and the purpose of its use.
 - b. A summary of any complaints or concerns received concerning the military equipment.
 - c. The results of any internal audits, any information about violations of the Military Equipment Use G.O., and any actions taken in response.
 - d. The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the Annual Military Equipment Report.
 - e. The quantity possessed for each type of military equipment.
 - f. If the ACSO intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.
 3. Within 30 days of submitting and publicly releasing an Annual Military Equipment Report, the ACSO shall hold at least one well-publicized and conveniently located community engagement meeting, at which the general public may discuss and ask questions regarding the Annual Military Equipment Report and the ACSO's funding, acquisition, possession, or use of military equipment.
- F. If the BOS does not approve the continuing use of military equipment, within 180 days of submission of the military equipment request to the BOS, the ACSO shall cease its use of the military equipment no later than the 180th day, until it receives the approval of the BOS in

accordance with this order.

G. Compliance:

1. Any ACSO member who uses any piece of military equipment shall do so for official law enforcement purposes only, in compliance with all ACSO written directives and State and Federal laws, and in a manner that respects the privacy of our community. The ACSO written directives governing the use and training of military equipment include, but are not limited to:
 - a. G.O. 1.05 – Use of Force
 - b. G.O. 1.08 – Annual Weapons Proficiency Training and Re-Qualification
 - c. G.O. 1.21 – Less Lethal Weapons Systems
 - d. G.O. 2.45 – AR-15 Semi-Automatic Rifle Deployment
 - e. G.O. 5.07 – Special Operations Group
 - f. G.O. 5.30 – Operation of Agency Emergency Vehicles
 - g. G.O. 6.15 – Small Unmanned Aircraft System (sUAS)
 - h. G.O. 6.16 – Special Purpose Vehicles and Animals
 - i. OES P&P 4.01 – Mobile Command Center
 - j. Special Response Unit (SRU) Policy & Procedure (P&P) 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents
 - k. SRU P&P 3.03 – Tactical Response Vehicles
 - l. SRU P&P 3.04 – Long Range Acoustical Device (LRAD)
 - m. POST SWAT Guidelines (recommendations, not mandates)
 - n. National Tactical Officers Association Tactical Response and Operations Standard for Law Enforcement Agencies (recommendations, not mandates)
 - o. FAA Regulation 14 CFR Part 107 – sUAS Operations
 - p. ACSO sUAS Operations Manual
 - q. The ACSO will comply with Assembly Bill 48 and PC 13652 when responding to assemblies, protests, demonstrations, or any other crowd management situations.
 - r. PC 835a – Objectively Reasonable Force to Effect Arrest; Use of Deadly Force
2. ACSO members who violate this general order **may** be subject to progressive discipline as set forth in G.O. 3.07.01 – Commendations and Discipline and G.O. 3.07.02 – Internal Affairs Complaints and Investigations. All instances of non-compliance will be

reported to the BOS via the Annual Military Equipment Report.

3. The responsibilities of the Military Equipment Coordinator, or their designee, include, but are not limited to:
 - a. Acting as a liaison to the BOS for matters related to the requirements of this Order.
 - b. Identifying equipment that qualifies as military **equipment which** the ACSO intends to acquire **and** that requires approval by the BOS.
 - c. Conducting an inventory of all military equipment, at least annually, and submitting the Annual Military Equipment Report, as documented in section E. of this order and in accordance with G.C. 7072.
 - d. Collaborating with any allied agency that may use military equipment within the jurisdiction of the ACSO (G.C. 7071).
 - e. Preparing for, scheduling, and coordinating the annual community engagement meeting (G.C. 7072(b)), **which includes:**
 - i. Publicizing the details of the meeting.
 - ii. Preparing for public questions regarding the ACSO's funding, acquisition, and use of the military equipment.
 - f. Monitoring **the *acso-mil-equip@acgov.org*** email address and ensuring timely responses.
 4. Any member of the public can register a question or concern regarding the ACSO's use of military equipment by emailing ***acso-mil-equip@acgov.org***. This email address will be monitored by the Military Equipment Coordinator, or their designee. The ACSO will respond to inquiries in a timely manner. This email address is **designated** solely for questions or concerns **related to the use of military equipment**. For all other inquiries **related to the ACSO**, the public should refer to the ACSO's website at www.alamedacountysheriff.org.
 5. **Members of the public** can submit complaints, in accordance with G.O. 3.07.02, by visiting the citizen complaint page on the ACSO's website at www.alamedacountysheriff.org/community/citizen-complaint.
 6. Coordination with Other Jurisdictions: Military equipment should not be used by any other law enforcement agency or ACSO member unless the military equipment is approved for use in accordance with this order.
- H. Maintenance/Inventory of Military Equipment Supply Levels: When stocks of approved military equipment have reached critically low levels, or have been exhausted, the ACSO may order up to the previously authorized capacity without BOS approval to maintain essential availability for ACSO needs.

Unit Commanders are responsible for maintaining a current inventory of all approved military equipment within their unit, pursuant to G.O. 2.29 – Fiscal Management.

Appendix B
ACSO Military Equipment
Inventory

Alameda County Sheriff's Office
Military Equipment Inventory (AB 481)
ACSO General Order 2.21.02
August 28, 2024

1. Small Unmanned Aircraft System (sUAS) – Category 1

Consists of the small, unmanned aircraft weighing under 55 pounds, the command system, a secure control link, and other related safety support equipment. All sUAS devices have video recording capabilities.

a. Description/Capabilities, Quantity, and Cost

- i. *BRINC LEMUR 2: Manufactured in the United States of America and is an advanced commercial-grade UAS specifically designed for interior use. Its battery technology allows for best-in-class flight time and its carbon fiber reinforced propeller ducts enable the UAS to bounce off walls and push open doors. If the UAS collides with an object and ends up on its back, it can flip itself over and relaunch to finish the mission. The controller facilitates two-way conversation between first responders and people they need to help through a set of two ultra-sensitive microphones and a small lightweight loudspeaker.***
Quantity: 12
Cost: \$15,000 per unit
- ii. *DJI AVATA 2: An uncrewed aerial system works as an excellent tool for indoor use. The Avata 2 is smaller, lighter, much more maneuverable, and sports a cinewhoop design where propeller guards are built into the UAS's airframe. The UAS can perform front/back flips, left/right rolls, has an ultra- wide-angle camera, films 4K/60fps HDR videos and has 23 minutes flight time.***
Quantity: 12
Cost: \$1,200 per unit
- iii. DJI FPV COMBO: First-person view UAS with 4K camera, S Flight Mode, super-wide 150-degree field of view, HD low latency transmission and emergency brake. This UAS can record 4K/60FPS video at up to 120Mbps.**
Quantity: 1
Cost: \$1,299 per unit
- iv. DJI MATRICE 210 V2: Large UAS with dual cameras, including a professional-grade infrared camera and 30x optical zoom. This UAS has a reliable and stable flight view and supports automatic dual frequency band switching and extends the flight range to up to 8km. It also has AES-256 Encryption, keeping data transmission secure and safe.**
Quantity: 1
Cost: \$16,000 per unit (Discontinued)
- v. DJI MATRICE 210 V2 RTK: Same description/capabilities as the DJI Matrice 210 V2 but with built-in high performance RTK modules and D-RTK 2 mobile station compatibility.**
Quantity: 1
Cost: \$16,000 per unit (Discontinued)

- vi. DJI MATRICE 300 RTK: Commercial UAS, offering up to 55 minutes of flight time, advanced AI capabilities, and 6 directional sensing and positioning. This UAS enables transmission up to 15km away and supports triple-channel 1080p video and offers real time auto-switching between 2.4Ghz and 5.8Ghz for a more reliable flight near high-interference environments. AES-256 encryption provides secure data transmission.
Quantity: 2
Cost: \$13,700 per unit
- vii. ***DJI MATRICE 30T: A commercial UAS, offering up to 55 minutes of flight time, advanced AI capabilities, and 6 directional sensing and positioning. This UAS enables transmission up to 15km away and supports triple-channel 1080p video and offers real time auto-switching between 2.4Ghz and 5.8Ghz for a more reliable flight near high-interference environments. AES-256 encryption provides secure data transmission. Dual zoom camera with thermal and color. IP 55 waterproof rating.***
Quantity: 6 per unit
Cost: \$15,000
- viii. DJI MAVIC 2 ENTERPRISE ADVANCED: Contains high-resolution thermal (640x512 thermal resolution and 16x zoom) and visual (48MP and 32x zoom) cameras and is capable of centimeter-level positioning accuracy with the RTK module. Dual-vision allows the operator to tap to switch between visual, thermal, or split-view feeds.
Quantity: 25
Cost: \$6,900 per unit
- ix. DJI MAVIC 2 ENTERPRISE DUAL: Contains a color and infrared camera, as well as an audible speaker and an M2E Spotlight. Weighs approximately 899 grams with a flight time of approximately 30 minutes.
Quantity: 13
Cost: \$5,500 per unit
- x. DJI MAVIC 2 ENTERPRISE ZOOM: Up to 4x zoom and 2x optical zoom and a 48mm telephoto lens. 25-30 minutes of flight time.
Quantity: 17
Cost: \$3,500 per unit
- xi. ***DJI MAVIC 3 ENTERPRISE: The updated version of the DJI Mavic 2 Enterprise Line. This UAS uses a 48MP camera, films 4K/60fps and 4K/30fps HDR videos. It has a flight time of 45 minutes and forward/backward/downward tri-directional dual-vision obstacle sensing system. The UAS has a 56x hybrid zoom, a 28x digital thermal zoom and a 4/3 CMOS sensor on the mapping version for high resolution photo mapping. The Advanced Pilot Assistance Systems detects objects in the aircraft's flight path in real-time.***
Quantity: 12
Cost: \$7,500 per unit
- xii. DJI MAVIC MINI 1: Miniature UAS that weighs approximately 249 grams and is capable of audio/video recording with an approximate flight time of 30 minutes. This UAS supports 12MP aerial photos and 2.7K HD videos.
Quantity: 11
Cost: \$400 per unit

- xiii. DJI MAVIC MINI 2: Miniature UAS that weighs approximately 249 grams and is capable of audio/video recording with an approximate flight time of 30 minutes. Uses a 12MP camera along with 4K video. This UAS can resist 29-38kph winds and take off at a max altitude of 4,000 meters.
Quantity: 30
Cost: \$449 per unit
- xiv. DJI MAVIC MINI 3 PRO (DJI RC): The updated version from the DJI Mavic Mini 2. This sUAS uses a 48MP camera, up to 4K/60fps videos and 4K/30fps HDR videos. It has a flight time of 34 minutes (47 minutes with the Intelligent Flight Battery Plus) and forward/backward/downward tri-directional dual-vision obstacle sensing system. The Advanced Pilot Assistance Systems detects objects in the aircraft's flight path in real-time. This allows the DJI Mini 3 Pro to avoid obstacles, even in complicated environments.
Quantity: 25
Cost: \$909 per unit
- xv. DJI MAVIC PRO PLATINUM: 4K video and a 12MP camera. 30 minutes of flight time and a reduced noise level as compared to its predecessor (Mavic Pro). This UAS has a 4.3-mile range.
Quantity: 1
Cost: \$9,000 per unit
- xvi. DJI PHANTOM 4 ADVANCED: 4K/60 fps video at a bit rate of 100 Mbps and still photos up to 20MP. 30-minute flight time with a flight speed up to 44mph and a 4.35-mile range.
Quantity: 10
Cost: \$2,700 per unit (Discontinued)
- xvii. DJI PHANTOM 4 PRO: 4K/60 fps video and a 20MP camera. The Flight Autonomy system adds dual rear-vision sensors plus infrared sensing for a total of five directions of obstacle sensing and four directions of obstacle avoidance. Up to 30 minutes of flight time.
Quantity: 3
Cost: \$3,699 per unit
- xviii. DJI PHANTOM 4 PROV2: Same description/capabilities as the DJI Phantom 4 PRO but with an upgraded propulsion system with FOC sinusoidal driver ESCs and 9455S quick-release propellers that reduce noise, making it up to 60% quieter and more aerodynamic. It also has OcuSync radio/video transmission technology, which allows the UAS to connect to DJI Goggles wirelessly.
Quantity: 5
Cost: \$6,600 per unit
- xix. DJI SPARK: A mini UAS weighing 300 grams and a flight time of 16 minutes. HD 1080p video and a 12 MP camera.
Quantity: 1
Cost: \$400 per unit
- xx. **SKYDIO X10: Manufactured in the United States of America. The X10 is an outdoor UAS used for tactical overwatch missions. The UAS is the first UAS to integrate a FLIR Boson + sensor, delivering high quality thermal imaging. With**

modular sensor packages and attachment areas, the UAS swiftly adapts to changing mission requirements. Four USB-C ports, three on the top and one on the bottom, are used to connect a variety of attachments for a maximum payload of 12 oz. Equipped with four attachment bays, the UAS can be adjusted to changing mission requirements. These optional swappable attachments include a parachute, speaker and microphone, and spotlight.

Quantity: 6

Cost: \$17,000 per unit

b. Purpose and Authorized Use

To be deployed when its view would assist Agency members with the following situations, including, but not limited to:

- i. Post-incident crime scene preservation and documentation
- ii. Explosive Ordnance Disposal (EOD) missions
- iii. Response to hazardous materials spills
- iv. Search and Rescue (SAR) missions as defined in California Government Code Section 26614.
- v. Public safety and life preservation missions to include barricaded suspects, hostage situations, active shooters, apprehension of armed and dangerous and/or violent fleeing suspects, and high-risk search warrants.
- vi. Disaster response and recovery to include natural or human caused disasters including a full overview of a disaster area for post incident analysis and documentation.
- vii. Training missions
- viii. In response to specific requests from local, state, or federal fire authorities for fire response and prevention
- ix. When there is probable cause to believe that (1) the sUAS will record images of a place, thing, condition, or event; and (2) that those images would be relevant in proving that a certain felony had occurred or is occurring, or that a particular person committed or is committing a certain felony and use of the sUAS does not infringe upon the reasonable expectation of privacy.
- x. Pursuant to a search warrant
- xi. Any official law enforcement mission or event approved by the Sheriff, or the Sheriff's Designee

All flights are documented on a mission dispatch form designed for that purpose and all flight time shall be accounted for on the form. The reason for the flight and type of mission as specified above and name of the supervisor approving the operation will also be documented. Prior to each sUAS flight, a Notice to Airmen (NOTAM) will be filed with the FAA. sUAS Commanders, operators, and observers will consider the protection of individual civil rights and the reasonable expectation of privacy as a key component of any decision made to deploy the sUAS. An sUAS operation requires a Certificate of Authorization (COA) from the FAA. ***Per G.O. 6.15 the sUAS will not be equipped with any weapons.***

c. Expected Life Span

All sUAS have an expected life span of 3-5 years.

d. Fiscal Impact

There is no anticipated annual maintenance cost. Over the three-to-five-year life span of the unit's operation, there is battery replacement cost of approximately \$400 per in-service sUAS.

e. **Training**

All Agency sUAS operators are certified in the operation of sUAS by successful completion of an approved training course. The pilot must meet standards required by the Federal Aviation Administration (FAA) and obtain an FAA Part 107 (Remote Pilot) license.

f. **Legal and Procedural Rules that Govern Each Authorized Use**

- i. G.O. 5.07 – Special Operations Group
- ii. G.O. 6.15 – Small Unmanned Aircraft System (sUAS)
- iii. FAA Regulation 14 CFR Part 107 – sUAS Operations
- iv. ACSO sUAS Operations Manual

2. Robots – Category 1

Unmanned machines operating on the ground and utilized to enhance the safety of the community and Agency members.

a. **Description/Capabilities, Quantity, and Cost**

- i. REMOTEC ANDROS BOMB DISPOSAL ROBOT: The REMOTEC Andros F6 robot has dual mobility capability with quick release pneumatic wheels for rapid width reduction and articulating track to traverse rough terrain. The manipulator arm has 7 degrees of freedom to ensure optimum dexterity. The grip rotation is continuous 360 degrees, the torso rotation +/- 90 degrees. It has onboard cameras with one full 360 PTZ.
Quantity: 2
Cost: \$260,486.69
- ii. TALON EOD ROBOT STANDARD SYSTEM: The Talon robot system features modular design which measures 34 inches long, 22.5 inches wide and 10.98 inches high when arm-stowed while the ground clearance is 2.7 inches. It can carry a payload of 100 pounds and has a drag capacity of up to 170 pounds with gripper, a tow capacity of 749 pounds and a maximum arm lift capacity of 20 pounds. TALON features a disruptor-ready manipulator arm, 360° rotating wrist, gripper, microphone, and a loudspeaker.
Quantity: 1
Cost: \$275,642.10
- iii. TALON CBRNE RESPONSE ROBOT: The Talon robot system features modular design which measures 34 inches long, 22.5 inches wide and 10.98 inches high when arm-stowed while the ground clearance is 2.7 inches. It can carry a payload of 100 pounds and has a drag capacity of up to 170 pounds with gripper, a tow capacity of 749 pounds and a maximum arm lift capacity of 20 pounds. TALON features a disruptor-ready manipulator arm, 360° rotating wrist, gripper, microphone, and a loudspeaker. The robot can be configured with a number of sensors to detect gas, chemical, radiation and temperature in HAZMAT duties.
Quantity: 1
Cost: \$406,187.77
- iv. FOSTER MILLER DRAGON RUNNER: The Dragon Runner is a small and lightweight robot designed to provide situational awareness, safety and support for reconnaissance, security, inspection and IED missions. The robot has 4 onboard day/night cameras and can lift up to 10 pounds.

Quantity: 1
Cost: \$119,069.85

- v. ICOR CALIBER T5: The ICOR Caliber T5 is a robot designed for Explosive Ordnance Disposal tasks. The robot is controlled with a command-and-control unit. There is a data and video radio frequency wireless systems, two-way communication with transmitter and receivers with push to talk functionality, a pan-tilt-zoom color camera, and front and rear drive color CCD cameras so that you can get feedback from the robot. The robot will lift, up to 45 lbs. with the arm retracted and 18 lbs. with the arm extended. It has a 360° rotating robotic claw with camera on telescoping arm. It can mount a single recoilless disruptor and function the disruptor with 4 isolated circuits.

Quantity: 4
Cost: \$158,230.46

- vi. ICOR MINI CALIBER: A lightweight, modular, one-person portable SWAT robot with audio/video capabilities. Two-way communication (talk/listen) with omnidirectional microphone and PTT (Push to Talk) functionality. 360-degree rotating robotic claw with wide angle camera and the ability to climb stairs and clear obstacles.

Quantity: 2
Cost: \$51,000

b. Purpose and Authorized Use

Electronic robots are an extension of law enforcement officers. They allow the robot to be a communication platform in de-escalation attempts as well as place a machine in high-risk environments in lieu of an Agency member. The use and integration of electronics, like robots, is supported as a national law enforcement best practice. They allow for standoff, safety, and communication to effectively evolve law enforcement into the 21st century. The authorized uses of robots include inspecting explosives and suspicious packages, safely communicating with individuals in high threat areas, and visually searching areas for hostages, victims, suspects, or other threats facing the community.

c. Expected Life Span

All robots have an expected life span of 8-10 years.

d. Fiscal Impact

Annual maintenance and battery replacement cost is approximately \$2,500 per robot.

e. Training

Training for all EOD members shall be developed, approved, or presented only as set forth in G.O. 3.01, which includes basic instruction in the identification, handling, and render safe procedures for improvised explosive devices provided by the Federal Bureau of Investigations (FBI). Ongoing mandated Agency EOD in-service training for proficiency is required. An FBI refresher course is recommended every 3 years.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 5.07 – Special Operations Group
- ii. EOD P&P 3.01 – EOD Training Plan
- iii. EOD P&P 4.04 – Bomb Vans and Trailers
- iv. EOD P&P 5.01 – Equipment, Operation and Readiness

3. Armored Vehicles – Category 2

Commercially produced wheeled armored personnel vehicles utilized for law enforcement purposes.

a. Description/Capabilities, Quantity, and Cost

- i. ARMORED GROUP BALLISTIC ARMORED TACTICAL TRANSPORT (BATT), MODEL BATT-S W/ ARMORED PIERCING PACKAGE: An armored vehicle that seats 12-14 personnel with open floor plan that allows for rescue of down personnel. It can stop various projectiles, which provides greater safety to citizens and Agency members beyond the protection level of shield and personal body armor.
Quantity: 1
Cost: \$154,870
- ii. ARMORED GROUP BALLISTIC ARMORED TACTICAL TRANSPORT (BATT), MODEL BATT-S W/ ARMORED PIERCING PACKAGE: An armored vehicle that seats 5 personnel with an EOD command post floor plan that allows bomb technicians to operate with the benefit of ballistic protection. It can stop various projectiles, which provides greater safety to citizens and Agency members beyond the protection level of shield and personal body armor.
Quantity: 1
Cost: \$230,535
- iii. 2013 Lenco BEARCAT: An armored vehicle that seats 12-14 personnel with open floor plan that allows for rescue of down personnel. It can stop various projectiles, which provides greater safety to citizens and Agency members beyond the protection level of shield and personal body armor.
Quantity: 2
Cost: \$300,000

b. Purpose and Authorized Use

To be used in response to critical incidents regionally to enhance both community safety and Agency members safety, improve scene containment and stabilization, and assist in resolving critical incidents. The use of armored vehicles shall only be authorized by a watch commander or SRU Commanding Officer, or designee, based on the specific circumstances of a given critical incident. Armored vehicles should only be operated by an SRU team member. Armored vehicles shall not be used for routine patrol operations.

c. Expected Life Span

15 years

d. Fiscal Impact

Annual maintenance cost for each armored vehicle is approximately \$1,000.

e. Training

All driver/operators shall be trained in vehicle operations and practical driving instruction. All armored vehicles should only be operated by an SRU team member and in a manner consistent with Agency policy and training.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 5.30 – Operation of Agency Emergency Vehicle
- ii. SRU P&P. 3.03 – Tactical Response Vehicles

4. LDV Mobile Command Center (MCC) – Category 5

a. Description/Capabilities, Quantity, and Cost

A mobile office that provides shelter, access to Sheriff's Office computer systems and communications, television monitors, workspaces, and exterior cameras. This is a custom built 36-foot LDV emergency response vehicle on a 2006 Freightliner frame.

Quantity: 1

Cost: \$600,000

b. Purpose and Authorized Use

The purpose of the MCC is to provide workspace and communication stations for field command operations. It also has television monitors to monitor news and events in real time. The vehicle is used as a mobile command post for emergency situations which require extended communications and control functions. The MCC may be used as a command post during disaster or emergency response situations. The MCC is a regional asset and as such may be utilized for deployment to other jurisdictions in cases of mutual assistance requests. Due to its unique function, the MCC may be deployed to community events as a static demonstration, with an operator to answer the public's questions about the functions and deployment. The Specialized Services Captain will be responsible for authorizing the use of the MCC.

c. Expected Life Span

20 years

d. Fiscal Impact

Annual maintenance cost is approximately \$5,000.

e. Training

All drivers must have completed the California Class B Commercial driving school and be properly licensed. The driver must have completed familiarization training of the MCC. The operator must have completed the familiarization training and be proficient in operating and troubleshooting the generator, satellite system, telephones, computers, external lighting, television monitors, camera, computers, and radios.

f. Legal and Procedural Rules that Govern Each Authorized Use

i. OES P&P. 4.01 – Mobile Command Center

ii. G.O. 5.30 – Operation of Agency Emergency Vehicle

5. LDV Mobile Response Vehicle EOD MCC – Category 5

a. Description/Capabilities, Quantity, and Cost

The EOD MCC provides workspace and communication stations for field command operations. It also has television monitors to monitor news and events in real time. The vehicle is used as a mobile command post for emergency EOD situations which require extended communications and control functions. Due to its unique function, the EOD MCC may be deployed to community events as a static demonstration, with an operator to answer the public's questions about the functions and deployment.

Quantity: 1

Cost: \$278,305

b. Purpose and Authorized Use

To be used during specific circumstances of a critical incident, large event, natural disaster, or community event that is taking place. The Special Operations Group (SOG) Captain will be

responsible for authorizing the use of the EOD MCC.

c. Expected Life Span

15 years

d. Fiscal Impact

Annual maintenance cost is approximately \$3,000.

e. Training

Class A license and internal Agency training required to operate.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. EOD P&P 4.04 – Bomb Vans and Trailers
- ii. EOD P&P 5.01 – Equipment, Operation and Readiness
- iii. G.O. 5.30 – Operation of Agency Emergency Vehicle

6. Ford F550 Mobile Response Vehicle EOD – Category 5

a. Description/Capabilities, Quantity, and Cost

A Ford F-550 and custom exterior storage box which contains equipment utilized to safely deal with situations where explosives, energetic material or suspicious items need to be identified and/or rendered safe.

Quantity: 3

Cost: \$180,000

b. Purpose and Authorized Use

The EOD response vehicle is used for explosive identification and render safe callouts.

c. Expected Life Span

15 years

d. Fiscal Impact

Estimated annual maintenance cost is \$3,000.

e. Training

All drivers must possess a California Class C driver license.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. EOD P&P 4.04 – Bomb Vans and Trailers
- ii. EOD P&P 5.01– Equipment, Operation and Readiness
- iii. G.O. 5.30 – Operation of Agency Emergency Vehicle

7. Crisis Intervention Unit (CIU) Vehicle – Category 5

a. Description/Capabilities, Quantity, and Cost

A Ford E-450 mobile office that provides a sheltered workspace with access to Sheriff's Office computers, communications systems, and workspaces during critical incident callout events for the CIU team.

Quantity: 1

Cost: \$180,000

b. Purpose and Authorized Use

The CIU vehicle is used for critical incident callouts, specifically when the situation dictates the need for the CIU team.

c. Expected Life Span

20 years

d. Fiscal Impact

Estimated annual maintenance cost is \$1,000.

e. Training

All drivers/operators shall receive training in the safe handling of the vehicle and possess a Class C driver license.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. CIU P&P 5.01– Inventory Control
- ii. SRU P&P 5.01 – Crisis Intervention Unit
- iii. G.O. 5.30 – Operation of Agency Emergency Vehicle

8. Small Unmanned Aircraft System Mobile Command Center (sUAS MCC) – Category 5

a. Description/Capabilities, Quantity, and Cost

A 2021 Mercedes-Benz 3500XD Sprinter Van that provides workspace and communications for Fields Command Operations. This van is capable of monitoring numerous sUAS flights and video streaming to Command Staff and/or government officials.

Quantity: 1

Cost: \$393,078

b. Purpose and Authorized Use

The sUAS MCC may be deployed to any law enforcement events including, but not limited to, hostage rescue, search & rescue, barricaded subjects, wildland fires and large natural disasters. The sUAS MCC may also be deployed to community events as a static display, with operators to answer questions about the vehicle and its capabilities. The Special Operations Group Captain will be responsible for authorizing the use of the sUAS MCC.

c. Expected Life Span

15 years

d. Fiscal Impact

Estimated annual maintenance cost is \$2,500.

e. Training

All drivers/operators shall receive training in the safe handling of the vehicle and possess a Class C driver license.

f. Legal and Procedural Rules that Govern Each Authorized Use

- G.O. 5.07 – Special Operations Group
- G.O. 5.30 – Operation of Agency Emergency Vehicle

9. Rifles and Ammunition – Category 10

Rifles are firearms capable of accurately stopping an armed subject at various distances, with reduced over-penetration than the standard-issued department handgun. They are lightweight, gas operated, magazine fed, shoulder or mount fired weapons, designed for semi-automatic fire. Rifles fire various caliber projectiles (.223, .308, .338, .5.56, 7.62), which are capable of penetrating soft body armor worn by armed suspects.

a. Description/Capabilities, Quantity, and Cost

RIFLES

- i. ACCURACY INTERNATIONAL, AX308, .308 WIN (LONG RIFLE): The Accuracy International AX Rifle is a bolt-action single shot rifle with free-floating barrel and a magazine capacity of ten rounds. Designed around the .308 Winchester cartridge, the AX can be converted for use with other short action cartridges such as the 6.5 Creedmoor - at the user level.
Quantity: 9
Cost: \$5,999
- ii. ACCURACY INTERNATIONAL, AXMC, .338 LAPUA (LONG RIFLE): The AXMC long rifle is a bolt-action single shot rifle with free-floating barrel and a magazine capacity of ten rounds. The AXMC rifle is easily upgradeable with a number of accessories and upgrades which can be purchased from Accuracy International distributors.
Quantity: 1
Cost: \$7,500
- iii. ARMALITE, M15, 5.56X45MM: The M15TAC14 is an AR-15 style rifle which utilizes a 5.56 round.
Quantity: 2
Cost: \$1,850
- iv. BUSHMASTER, XM15-E2S, 5.56X45MM: This Bushmaster Model XM15-E2S is an AR-15 style rifle which utilizes a 5.56 round.
Quantity: 21
Cost: \$949
- v. COLT, AR-15, 5.56X45MM: The Colt AR-15 is a lightweight, magazine-fed, gas-operated semi-automatic rifle. It is a semi-automatic version of the M16 rifle sold for the civilian and law enforcement markets in the United States.
Quantity: 2
Cost: \$2,000
- vi. COLT, AR-15A2, 5.56X45MM: All of the Colt AR-15 Models are essentially the same with slight variations based on the version and year it was produced.
Quantity: 16
Cost: \$1,500
- vii. COLT, AR-15A2 CARBINE, 5.56X45MM: All of the Colt AR-15 Models are essentially the same with slight variations based on the version and year it was produced.
Quantity: 3
Cost: \$1,300
- viii. COLT, AR-15A3, 5.56X45MM: All of the Colt AR-15 Models are essentially the same

with slight variations based on the version and year it was produced.

Quantity: 12

Cost: \$900

- ix. COLT, LE CARBINE, 5.56X45MM: This is a specially designed law enforcement weapon. With the 4-position buttstock fully retracted, the Colt Law Enforcement Carbine is less than 32in length and weighs only 6.9 lb. - ideal for tactical deployment and traditional patrol.
Quantity: 7
Cost: \$1,100
- x. COLT, LE6920, 5.56X45MM: The Colt M4 Trooper 5.56mm 16" (aka Colt Trooper Patrol Carbine) .223 Remington/5.56 NATO chambered semi-automatic is an upgrade to the civilian version of the Colt M4.
Quantity: 182
Cost: \$1,100
- xi. COLT, LE6933, 5.56X45MM: The Colt Enhanced Patrol Rifle is an AR-15 style rifle which utilizes a 5.56 round and is similar in appearance to the other Colt rifles.
Quantity: 17
Cost: \$1,315
- xii. COLT, M4 CARBINE, 5.56X45MM: The Colt AR15 M4 Carbine is an AR-15 style rifle which utilizes a 5.56 round and is similar in appearance to the other Colt Rifles.
Quantity: 11
Cost: \$1,300
- xiii. COLT, SP6920, 5.56X45MM: The Colt SP6920 is Colt's primary M4 Carbine clone sold to civilians and law enforcement in the United States. It features a 16in. (40.6cm) barrel and is practically identical to the Colt M4 Carbines in every other way, except for the lack of fully automatic/burst fire modes.
Quantity: 13
Cost: \$1,300
- xiv. COLT, SPORTER, .223: The AR-15 Sporter is a semi-automatic variant of the AR-15 series of assault rifles.
Quantity: 1
Cost: \$1,400
- xv. COLT, SPORTER HBAR, 5.56X45MM: This Colt Model Sporter Match HBAR is a right-hand semi-auto tactical rifle in 5.56 NATO Cal. It has a 19.5-inch barrel plus a muzzle device. 1/9 twist. An adjustable post front sight with protective sides and an adjustable flip two position aperture rear sight.
Quantity: 1
Cost: \$2,000
- xvi. COLT, SPORTER LW, .223: The AR-15 Sporter is a semi-automatic variant of the AR-15 series of assault rifles.
Quantity: 1
Cost: \$1,400
- xvii. HECKLER & KOCH, 53A3, 5.56X45MM: The HK 53 is a compact rifle. The HK 53 is

the short carbine variant of the HK 33 rifle. The HK 53 looks like it has similar proportions as the MP5, but the magazine well and forearm and flash hider are longer, making it a slightly longer weapon.

Quantity: 1

Cost: Discontinued – No pricing available

- xviii. LMT, SPM16, 5.56X45MM: The SPM16 is an AR-15 style rifle which utilizes a 5.56 round.
Quantity: 4
Cost: \$2,000
- xix. LWRC, IC Enhanced, 5.56X45MM: The IC-Enhanced with one-piece Monoforge upper design includes an integrated rail-base that is stronger and lighter. The 9" user configurable rail system with individual rail sections allow the shooter to place accessory rails where they are needed while maintaining its low profile ergonomic fit and function.
Quantity: 1
Cost: \$2,500
- xx. LWRC, ICDI, 5.56X45MM: The IC DI Pistol model combines all of the features found in full-size rifle models, including an LWRCI 10.5" cold hammer forged Ni-Corr treated heavy barrel, modular one-piece free-float standard rail and Monoforge upper receiver.
Quantity: 19
Cost: \$1,500
- xxi. LWRC, ICDIR5B16, 5.56X45MM: Essentially the same as the LWRC ICDI, with slight variations based on the version and year it was produced.
Quantity: 4
Cost: \$1,800
- xxii. LWRC, M61C, 5.56X45MM: The LWRC M61C is an AR-15/M4 platform. It has many upgrades over standard AR-15s, including a Nickel Boron trigger group, monoforge upper receiver, 7075 aluminum forging for additional strength, and type-3 hard coat anodizing.
Quantity: 36
Cost: \$1,400
- xxiii. LWRC, REPR M2, 7.62X51MM (LONG RIFLE): The LWRCI Rapid Engagement Precision Rifle (R.E.P.R.) is a rifle designed to put 7.62 mm NATO rounds on target in a variety of real-world applications.
Quantity: 1
Cost: \$4,200
- xxiv. LWRC, REPR MK11, 7.62X51MM (LONG RIFLE): The LWRCI Rapid Engagement Precision Rifle (R.E.P.R.) is a rifle designed to put 7.62 mm NATO rounds on target in a variety of real-world applications.
Quantity: 1
Cost: \$4,200
- xxv. LWRCI, ICDI, 5.56X45MM: The ICDI is a rifle designed to put 5.56 mm rounds on target in a variety of real-world applications.
Quantity: 19

Cost: \$1,700

- xxvi. ROCK RIVER ARMS, LAR-15, 5.56X45MM: An AR-15 style rifle which utilizes a 5.56 mm round.
Quantity: 58
Cost: \$1,000
- xxvii. SIG SAUER, WRM-400, 5.56X45MM: The WRM-400 is an AR-15 style rifle which utilizes a 5.56 mm round.
Quantity: 7
Cost: \$1,000
- xxviii. SPRINGFIELD ARMORY, M-14, 7.62X51MM: This is a select fire rifle that fires the 7.62x51mm NATO round. The design is derived from the M1 Garand. The M14M is a M14 modified for semi-automatic fire only and was widely sold to US civilians.
Quantity: 1
Cost: \$1,300
- xxix. TRW, M-14, 7.62X51MM: Discontinued – No manufacturer’s description available
Quantity: 2
Cost: Discontinued – No pricing available
- xxx. WINCHESTER, M-14, 7.62X51MM: Discontinued – No manufacturer’s description available
Quantity: 1
Cost: Discontinued – No pricing available

RIFLE AMMUNITION

- i. **.223 SPEER GOLD DOT LE DUTY, REMINGTON, 75 GRAIN, SOFT POINT:** Speer LE Gold Dot Duty Rifle delivers proven ammo technology to the rifle platform for each consumer. The Gold Dot bullet was the first high performance, bonded-core bullet available in handgun ammunition, and has since set the bar very high for duty ammo. These specially designed loads bring law enforcement rifle ammunition to the next level. The kind of performance that is presented with the LE Gold Dot ammunition by Speer is significantly increases the abilities of duty rifles and provides law enforcement personnel a diverse advantage when it matters most. In addition, these new loads boast outstanding feeding in short, very short and standard-length AR platforms.
Quantity: 29,543
Cost: \$1.10 per round
- ii. **5.56 WINCHESTER RANGER, 5.56MM, 64 GRAIN, RA556B BONDED SOLID BASE:** The Winchester Ranger 5.56mm 64gr Bonded Solid Base rifle duty ammunition has a protected soft point designed to initiate rapid and controlled expansion to quickly stop a potential threat. Its bonded lead core maximizes retained weight for consistent terminal performance through a wide range of demanding barriers. The extruded solid base design maximizes penetration even after encountering a tough barrier such as auto glass.
Quantity: 340
Cost: \$1.50 per round
- iii. **.308 WINCHESTER FEDERAL GOLD MEDAL MATCH (168 GRAIN):** Federal Gold

Medal 308 Winchester ammunition is new production ammo that features a 168 Grain Sierra MatchKing Hollow Point Boat Tail bullet, a non-corrosive boxer primer and the 308 Winchester ammunition is brand new never fired virgin brass casing that can be reloaded up to seven times for those shooters that reload their 308 Winchester ammunition. Sierra MatchKing Boat-tail bullet with Federal's proprietary delivery system. Federal's Gold Medal 308 Winchester ammo offers a muzzle speed of 2650 feet per second and a muzzle energy of 2619 foot pounds. Stringent manufacturing controls give you what many experts and international shooters consider the most accurate match 308 Winchester round available from a factory.

Quantity: 6,180

Cost: \$1.70 per round

- iv. **.308 WINCHESTER RUAG SWISS P STYX ACTION (167 GRAIN):** The hyper expanding hollow point bullet immediately deposits its energy within a very short distance providing excellent stopping power on soft targets and is direction stable. The sophisticated bullet tip provides a reliable hyper expansion to approximately twice the original diameter. Tight production tolerances and small production batches ensure constant ballistic values and stringent quality controls guarantee identical trajectory from batch to batch. A wide range of special purpose bullets provide the desired terminal effect on hard and soft targets on every mission. All .308 Win. SWISS P rounds have an identical point of impact at 100 m which allows the shooter to instantly change the bullet type.
Quantity: 6,520
Cost: \$2.63 per round
- v. **.308 WINCHESTER RUAG SWISS P TACTICAL (164 GRAIN):** The challenge is to accurately hit targets behind an angled window or wind shield without the risk of unpredictable bullet deflection. This could endanger bystanders, especially if the shooting line is not perpendicular to the window. Conventional bullets break apart or fragment when penetrating glass which makes accurate shooting impossible. At least 90% of the residual body of the SWISS P Tactical bullet stays intact and it does not fragment at all. Tight production tolerances and small production batches ensure constant ballistic values and stringent quality controls guarantee identical trajectory from batch to batch.
Quantity: 860
Cost: \$6.25 PER ROUND
- vi. **.338 LAPUA MAGNUM RUAG SWISS P STYX ACTION (247 GRAIN):** The hyper expanding hollow point bullet immediately deposits its energy within a very short distance providing excellent stopping power on soft targets and is direction stable. The sophisticated bullet tip provides a reliable hyper expansion to approximately twice the original diameter. Tight production tolerances and small production batches ensure constant ballistic values and stringent quality controls guarantee identical trajectory from batch to batch. A wide range of special purpose bullets provide the desired terminal effect on hard and soft targets on every mission. All .338 Lapua Mag. SWISS P rounds have an identical point of impact at 300 m which allows the shooter to instantly change the bullet type.
Quantity: 280
Cost: \$5.75 per round
- vii. **.338 LAPUA MAGNUM RUAG SWISS P TACTICAL (250 GRAIN):** The challenge is to accurately hit targets behind an angled window or wind shield without the risk of

unpredictable bullet deflection. This could endanger bystanders, especially if the shooting line is not perpendicular to the window. Conventional bullets break apart or fragment when penetrating glass which makes accurate shooting impossible. At least 90% of the residual body of the SWISS P Tactical bullet stays intact and it does not fragment at all. Tight production tolerances and small production batches ensure constant ballistic values and stringent quality controls guarantee identical trajectory from batch to batch.

Quantity: 320

Cost: \$4.95 per round

- viii. **.338 LAPUA MAGNUM RUAG SWISS P Armor Piercing (260 GRAIN):** The most accurate Armor Piercing round the tungsten carbide core provides outstanding penetration power Temperature independent propellant guarantees a consistent point of impact Coordinated ballistics with SWISS P Ball, Target, Styx Action, and Tactical rounds up to 300 m.

Quantity: 380

Cost: \$2.30 per round

b. Purpose and Authorized Use

Rifles may be deployed and utilized under specific conditions and circumstances when a potential lethal threat has been identified and personnel require the capability of a rifle to overcome the threat. These are mainly high-risk situations where precision and distance are factors as they are more accurate and effective than standard-issued department handguns. These situations include, but are not limited to:

- i. Barricaded suspect(s)
- ii. Felony warrant service
- iii. VIP protection
- iv. High risk undercover operations
- v. Armed suspects
- vi. Shots fired on-scene prior to or during police response.
- vii. Hostage situations
- viii. Acts or threats of violence against hostages, victims, and/or deputies
- ix. Active shooter incidents

Whenever possible, personnel shall obtain permission from a Patrol Supervisor or on scene Tactical Supervisor prior to deploying a patrol rifle.

c. Expected Life Span

15-20 years

d. Fiscal Impact

Estimated annual maintenance cost is \$50-\$100 per rifle.

e. Training

Only personnel who have completed the sixteen-hour ACSO AR-15 training course, or an equivalent POST certified training course authorized by the Regional Training Center, may be assigned to carry, and utilize the weapon. Personnel must also complete a re-certification course within twelve months of the original training course, and once a year thereafter. For those assigned to the SRU Reconnaissance Team and possess a long rifle, they must successfully complete a POST certified Basic Sniper Course and participate in documented and verifiable training on a monthly basis.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 2.45 – AR-15 Semi-Automatic Rifle Deployment
- ii. G.O. 5.07 – Special Operations Group
- iii. SRU P&P 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents
- iv. Rules and Regulations 3.4.31 – Ammunition
- v. PC 835a – Objectively Reasonable Force to Effect Arrest, Use of Deadly Force

10. Chemical Agents and Smoke Canisters – Category 12

Canisters that contain chemical agents or smoke that are released into the air when deployed.

a. Description/Capabilities, Quantity, and Cost

- i. DEFENSE TECHNOLOGY, POCKET TACTICAL CANISTER, CS, #1016: The Pocket Tactical CS Canister is small, and lightweight. The 0.9 oz. of active agent will burn approximately 20-40 seconds. At 4.75” by 1.4” size, it easily fits in most tactical pouches. This is a launchable canister; however, it is normally used as a signaling or covering device. Though this device is slightly over four inches in length, it produces a smoke cloud so fast it appears to be an enveloping screen produced by a full-size tactical canister.
Quantity: 108
Cost: \$28
- ii. DEFENSE TECHNOLOGY, FLAMELESS TRI-CHAMBER CS CANISTER, #1032: The design of the Tri-Chamber Flameless CS Canister allows the contents to burn within an internal can and disperse the agent safely with reduced risk of fire. The canister is designed primarily for indoor tactical situations to detect and/or dislodge a barricaded subject. This canister will deliver approximately .70 oz. of agent during its 20-25 seconds burn time. The Tri-Chamber Flameless Canister can be used in crowd control as well as tactical deployment situations by Law Enforcement and Corrections but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or dislodge barricaded subjects. The purpose of the Tri-Chamber Flameless Canister is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects. The Tri-Chamber Flameless Canister provides the option of delivering a pyrotechnic chemical device indoors, maximizing the chemicals’ effectiveness via heat and vaporization, while minimizing or negating the chance of fire to the structure. The Tri-Chamber Flameless Canister is NOT to be launched utilizing a launching cup.
Quantity: 24
Cost: \$46.25
- iii. DEFENSE TECHNOLOGY, OC/CS AEROSOL CANISTER, #1050: Designed for indoor use, this canister contains no CFCs, is not a fire hazard and requires minimal decontamination by comparison to smoke, powders, or liquids. The Aerosol Canister is most commonly used in tactical situations by Law Enforcement and Corrections and was designed with indoor operations in mind when a non-fire producing delivery system is desired. It is most effective when used in confined areas and close to the target area. Used to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of potentially violent or dangerous subjects. The Aerosol Canister is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder, or liquid devices is not practical or desired. The OC and CS combination provide sufficient effects in confined areas of up to 1,500 square feet. The Aerosol Canister is

not recommended for outdoor use.

Quantity: 28

Cost: \$60.15

- iv. DEFENSE TECHNOLOGY, OC VAPOR AEROSOL CANISTER, #1056: The Defense Technology OC Vapor Aerosol Canister is for law enforcement and corrections use to deliver a high concentration of Oleoresin Capsicum (OC) in a powerful mist. The canister is designed for indoor use in confined areas and once deployed inflames the mucous membranes and exposed skin resulting in an intense burning sensation. The incapacitating effect of the OC Vapor on the subject is dramatic with minimal decontamination needed. Removing the subject from the affected area to fresh air will resolve respiratory effects within minutes. The OC Vapor Aerosol Canister is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder, or liquid devices is not practical or desired.
Quantity: 16
Cost: \$50.15
- v. DEFENSE TECHNOLOGY, RIOT CONTROL CONTINUOUS DISCHARGE CANISTER, CS, #1082: The Riot Control CS Canister is designed specifically for outdoor use in crowd control situations with a high-volume continuous burn that expels its payload in approximately 20-40 seconds through four gas ports located on the top of the canister. This canister can be used to conceal tactical movement or to route a crowd. The volume of smoke and agent is vast and obtrusive. This launchable canister is 6.0 in. by 2.35 in. and holds approximately 2.7 oz. of active agent.
Quantity: 96
Cost: \$29.30
- vi. DEFENSE TECHNOLOGY, MAXIMUM HC SMOKE MILITARY-STYLE CANISTER, #1083: The Military-Style Maximum Smoke Canister comes from the Defense Technology #3 smoke canister. It is a slow burning, high volume, continuous discharge canister designed for outdoor use in crowd management situations. Emits grey-white smoke only for approximately 1.5 to 2 minutes.
Quantity: 203
Cost: \$39.15
- vii. DEFENSE TECHNOLOGY, STINGER 60-CALIBER RUBBER BALL CANISTER, #1087: The Stinger Canister is a maximum effect device that delivers three stimuli for psychological and physiological effects: rubber pellets, light, and sound. The Stinger Canister is most widely used as a crowd management tool. The Rubber Ball Blast Canister is used to deliver 60 Caliber Rubber Balls with the stimuli of light and sound. The canister is most widely used as a crowd management training tool by Law Enforcement and Corrections.
Quantity: 203
Cost: \$50.15
- viii. DEFENSE TECHNOLOGY, HAN-BALL CANISTER, CS, #1092: The Han-Ball CS Canister is an outdoor use canister expelling its payload in approximately 15-20 seconds. The rubber ball round has an overall size of 4.8" tall, including the fuse head, and 3.1" diameter. This launchable canister holds approximately 1.6 oz. of active agent which is expelled through three ports around the equator of the ball.
Quantity: 400
Cost: \$40.75

- ix. DEFENSE TECHNOLOGY, HAN-BALL CANISTER, SAF-SMOKE, #1093: The Han-Ball Saf-Smoke Canister is fast burning high volume continuous discharge canister. The outdoor use canister expels its payload in approximately 15-20 seconds. The rubber ball round has an overall size of 4.8” tall, including the fuse head, and 3.1” diameter. This launchable canister holds approximately 1.6 oz. of active agent which is expelled through three ports around the equator of the ball.
Quantity: 215
Cost: \$40.75
- x. COMBINED TACTICAL SYSTEMS, CS BAFFLED CANISTER, PYRO, LOW FLAME POTENTIAL. #5230B: Pyrotechnic canister designed for indoor use delivering a maximum amount of irritant smoke throughout multiple rooms with minimal risk of fire.
Quantity: 24
Cost: \$50.00

b. Purpose and Authorized Use

To limit the escalation of conflict where employment of lethal force is prohibited or undesirable. Situations for use of the less lethal weapon system may include, but are not limited to:

- i. Self-destructive, dangerous, and/or combative individuals
- ii. Riot/crowd management and civil unrest incidents
- iii. Circumstances where a tactical advantage can be obtained.
- iv. Potentially vicious animals
- v. Training exercises or approved demonstrations.

Agency members are authorized to use them during the performance of their duties to protect life and property.

PC 13652 shall be followed, which describes the prohibited uses of kinetic energy projectiles and chemical agents during crowd management events.

c. Expected Life Span

5 years from manufacturing date.

d. Fiscal Impact

No annual maintenance.

e. Training

Agency members utilizing chemical agents are trained in-house by POST chemical agent instructors.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 1.05 – Use of Force
- ii. G.O. 1.21 – Less Lethal Weapons System
- iii. RTC P&P 9.02 – Safety Policy – Chemical Agents
- iv. SRU P&P 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents
- v. SRU P&P 5.03 – Equipment Issuance, Inventory and Accountability
- vi. PC 13652 – Kinetic Energy Projectiles and Chemical Agents Use Limitations

11. Light-Sound Diversionary Devices (LSDD) – Category 12

A LSDD is ideal for deescalating dangerous situations without the use of a higher level of force. They are used for distracting dangerous suspects during assaults, hostage rescue, room entry, or other high-risk arrest situations.

a. Description/Capabilities, Quantity, and Cost

- i. DEFENSE TECHNOLOGY, DISTRACTION DEVICE 12-GRAM RELOAD, #8901: The Distraction Device Reload utilizes a standard military-style M201A1 type fuse and produces 175 dB of sound output at 5 feet and 6-8 million candelas for 10 milliseconds. The reload is available with and without a safety clip.
Quantity: 7
Cost: \$36.75
- ii. COMBINED TACTICAL SYSTEMS, MINI-BANG STEEL BODY, #7290M: The CTS 7290M Mini Light and Sound Distraction Device exhibits all the same attributes of its larger counterpart but in a smaller and lighter package. Weighing in at just 15 ounces the 7290M is approximately 30% lighter than the 7290 but still has the same 175db output of the 7290 and produces 6-8 million candelas of light. The patented design of the 7290M, incorporates a porting system that eliminates movement of the body at detonation even if the top or bottom of the device should be in contact with a hard surface. In addition, internal adjustments have greatly reduced smoke output.
Quantity: 100
Cost: \$45.00

b. Purpose and Authorized Use

To produce atmospheric over-pressure and brilliant white light and, as a result, can cause short-term (6-8 seconds) physiological/psychological sensory deprivation to give Agency members a tactical advantage. To be used in hostage and barricaded situations, high risk warrant services, and any other situation where their use would enhance Agency members' and hostages' safety.

c. Expected Life Span

5 years from manufacturing date.

d. Fiscal Impact

No annual maintenance.

e. Training

Agency members utilizing LSDDs are trained by POST certified instructors.

f. Legal and Procedural Rules that Govern Each Authorized Use

SRU P&P 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents.

12. Long Range Acoustic Device 100X (LRAD) – Category 13

a. Description/Capabilities, Quantity, and Cost

The LRAD is a high intensity directional acoustical array for long-range, crystal-clear hailing, notification, and an unmistakable warning tone. The LRAD is primarily used as a communication device that can effectively broadcast messages through wind, engine and background noise and is able to be clearly understood even inside vehicles and some buildings. The Leading Portable Acoustic Hailing Device for On-Scene and Tactical Communications. In addition to featuring best in class broadcast voice intelligibility, the LRAD

100X is 20 – 30 decibels louder than typical bullhorns and vehicle-based P.A. systems. Live or recorded broadcasts from the portable LRAD 100X are heard above crowd and background noise to ensure every message is clearly delivered. Optimized driver and waveguide technology coupled with power efficiency ensure several hours of clear, continuous communication. The LRAD warning tone safely alerts attention to the voice messages that follow, establishes large standoff zones, and is the safer crowd control alternative to non-lethal and kinetic measures. The clear communication leads to a safer environment during critical incidents and enhances the safety of the community, criminal subjects, and law enforcement. Absent exigent circumstances and to protect a person from the threat of death or great bodily injury, the LRAD shall not be used as a weapon.

Quantity: 2

Cost: \$9,754

b. Purpose and Authorized Use

The LRAD 100X is not designed to be a weapon. It is utilized to safely communicate critical instructions and emergency warning tones to people over a large distance. Only trained personnel from the Special Response Unit or Crisis Intervention Unit will deploy the LRAD 100X during tactical operations to include search warrant executions, barricaded subjects, crowd management operations, and the safe de-escalation of events surrounding subjects suffering from a mental health crisis.

c. Expected Life Span

Indefinite

d. Fiscal Impact

No annual maintenance cost.

e. Training

In-field training according to the manufacturer's instruction manual.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. CIU P&P 5.01 – Inventory Control
- ii. SRU P&P 3.04 – Long Range Acoustical Device

13. Long Range Acoustic Device 300X (LRAD) – Category 13

a. Description/Capabilities, Quantity, and Cost

The LRAD 300X is a vehicle mounted and transported device with high intensity directional acoustical array for long-range, crystal-clear hailing, notification, and an unmistakable warning tone. The LRAD 300X broadcasts clear, authoritative voice commands and is primarily used as a communication device that can effectively broadcast messages through wind, engine and background noise and is able to be clearly understood even inside vehicles and some buildings. Live or recorded broadcasts from the LRAD 300X are heard above crowd and background noise to ensure every message is clearly delivered. Optimized driver and waveguide technology coupled with power efficiency ensure several hours of clear, continuous communication. The LRAD warning tone safely alerts attention to the voice messages that follow, establishes large standoff zones, and is the safer crowd control alternative to non-lethal and kinetic measures. The clear communication leads to a safer environment during critical incidents and enhances the safety of the community, criminal subjects, and law enforcement. Absent exigent circumstances and to protect a person from the threat of death or great bodily injury, the LRAD shall not be used as a weapon.

Quantity: 1
Cost: \$10,000

b. Purpose and Authorized Use

The LRAD 300X is not designed to be a weapon. It is utilized to safely communicate critical instructions and emergency warning tones to people over a large distance. Only trained personnel from the Special Response Unit or Crisis Intervention Unit will deploy the LRAD 300X during tactical operations to include search warrant executions, barricaded subjects, crowd management operations, and the safe de-escalation of events surrounding subjects suffering from a mental health crisis.

c. Expected Life Span

Indefinite.

d. Fiscal Impact

No annual maintenance cost.

e. Training

In-field training according to the manufacturer's instruction manual.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. CIU P&P 5.01 – Inventory Control
- ii. SRU P&P 3.03 – Tactical Response Vehicles
- iii. SRU P&P 3.04 – Long Range Acoustical Device

14. 40MM Less Lethal Launcher and Rounds – Category 14

40MM launchers are utilized by Agency members as a less lethal tool to launch impact rounds.

a. Description/Capabilities, Quantity, and Cost

- i. DEFENSE TECHNOLOGY, 40MM LMT TACTICAL SINGLE LAUNCHER, EXPANDABLE STOCK, #1425: The 40MM Single Launcher is a tactical single shot launcher that features an expandable ROGERS Super Stoc and an adjustable Integrated Front Grip (IFG) with light rail. It will fire standard 40mm less lethal ammunition, up to 4.8 inches in cartridge length. It will launch a 40MM less lethal round up to 131 feet.
Quantity: 28
Cost: \$985.70
- ii. PENN ARMS, GL-1 COMPACT 40MM SINGLE LAUNCHER, #L140-4: A 40mm compact single-shot break-open frame launcher with a rifled barrel and folding stock.
Quantity: 4
Cost: \$794.32
- iii. DEFENSE TECHNOLOGY, FERRET 40MM LIQUID BARRICADE PENETRATOR ROUND, CS, #2262: Used primarily by tactical teams, it is designed to penetrate barriers, such as windows, hollow core doors, wallboard, and thin plywood. Upon impacting the barrier, the nose cone ruptures and instantaneously delivers a small chemical payload inside of a structure or vehicle. In a tactical deployment situation, the 40mm Ferret is primarily used to dislodge barricaded subjects from confined areas. Its purpose is to minimize the risks to all parties through pain compliance, temporary discomfort and/or incapacitation of potentially violent or dangerous subjects.

Quantity: 62
Cost: \$28.15

- iv. DEFENSE TECHNOLOGY, FERRET 40MM POWDER BARRICADE ROUND, CS, #2292: The Ferret 40 mm Barricade Penetrating Round is filled with a CS powder chemical agent. It is a frangible projectile that is spin stabilized utilizing barrel rifling. It is non-burning and designed to penetrate barriers. Primarily used to dislodge barricaded subjects, it can also be used for area denial. Primarily used by tactical teams, it is designed to penetrate barriers, such as windows, hollow core doors, wallboard, and thin plywood. Upon impact the nose ruptures and instantaneously delivers the agent payload inside a structure or vehicle.
Quantity: 59
Cost: \$27.85
- v. DEFENSE TECHNOLOGY, 40MM AERIAL WARNING/SIGNALING MUNITION WITH OC, 100 METERS WITH PAYLOAD, #6029OC: The 40 mm Warning/Signaling Muniton will produce 170 dB of sound and 5 million candelas of light. This munition has an operational range of 100 meters. Launched from a 40 mm platform, this munition gives the operator the ability to engage people, vehicles, or vessels from a safe stand-off position. In open waters, the flash and sound are easily observable at great distances.
Quantity: 10
Cost: \$45.60
- vi. DEFENSE TECHNOLOGY, MUZZLE BLAST 40MM ROUND, CS, #6042: The 40 mm Muzzle Blast CS Round is widely used as a crowd management tool for the immediate and close deployment. It can also be employed in tactical operations such as barricaded subjects, room clearing, area denial, and for small space contamination, and a means of contaminating crawl spaces and attics. As a pain compliance round it is an excellent device for deploying chemical-laden CS powder at close ranges for indoor or outdoor operations. The cloud of agent is very effective in filling holes in dispersals lines or engaging crowds at close distances.
Quantity: 79
Cost: \$26.75
- vii. DEFENSE TECHNOLOGY, MULTIPLE RUBBER BATON ROUND 40MM, #6064: The 40 mm Multiple Rubber Baton Round is most widely used as a crowd management tool by Law Enforcement and Corrections. The round contains three rubber projectiles. It utilizes smokeless powder as the propellant and has more consistent velocities and tighter patterns compared to its 37 mm black powder counterpart. It is suitable for administering a means of pain compliance over a greater distance than most of its counterparts. Used for routing crowds or groups that are mildly resistive.
Quantity: 340
Cost: \$28.10
- viii. DEFENSE TECHNOLOGY, MULTIPLE WOOD BATON ROUND 40MM, #6098: The 40 mm Multiple Wood Baton Round is most widely used as a crowd management tool by Law Enforcement and Corrections. The round contains three wooden projectiles. It utilizes smokeless powder as the propellant and has more consistent velocities and tighter patterns compared to its 37 mm black powder counterpart. It is suitable for administering a means of pain compliance over a greater distance than most of its counterparts. Used for routing crowds or groups that is mildly resistive.
Quantity: 70

Cost: \$27.05

- ix. DEFENSE TECHNOLOGY, EXACT IMPACT 40MM STANDARD RANGE SPONGE ROUND, #6325: The eXact iMPact 40 mm Sponge Round is a point-of-aim, point-of-impact direct-fire round. This lightweight, high-speed projectile consisting of a plastic body and sponge nose that is spin stabilized via the incorporated rifling collar and the 40 mm launcher's rifled barrel. The round utilizes smokeless powder as the propellant, and, therefore, have velocities that are extremely consistent. Used for Crowd Control, Patrol, and Tactical Applications.
Quantity: 557
Cost: \$28.65
- x. COMBINED TACTICAL SYSTEMS, 40MM CS LIQUID BARRICADE, SPIN STABILIZED, 4.1" LONG, #4330: Liquid CS filled projectile penetrates intermediate barriers and delivers irritant agents into an adjacent room.
Quantity: 50
Cost: \$29.70
- xi. COMBINED TACTICAL SYSTEMS, 40MM CS POWDER BARRICADE, SPIN STABILIZED, 4.1" LONG, #4431: CS powder filled projectile penetrates intermediate barriers and delivers irritant agents into an adjacent room.
Quantity: 50
Cost: \$31.90

b. Purpose and Authorized Use

To deescalate conflict. Situations for use of the less lethal weapon system may include, but are not limited to:

- i. Self-destructive, dangerous, and/or combative individuals
- ii. Riot/crowd management and civil unrest incidents
- iii. Circumstances where a tactical advantage can be obtained.
- iv. Potentially vicious animals
- v. Training exercises or approved demonstrations

Agency members are authorized to use them during the performance of their duties to protect life and property.

PC 13652 shall be followed, which describes the prohibited uses of kinetic energy projectiles and chemical agents during crowd management events.

c. Expected Life Span

5 years

d. Fiscal Impact

No annual maintenance

e. Training

Agency members utilizing chemical agents are trained by POST less lethal instructors in a POST approved course.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 1.05 – Use of Force
- ii. G.O. 1.21 – Less Lethal Weapons System

- iii. RTC P&P 9.02 – Safety Policy – Chemical Agents
- iv. SRU P&P 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents
- v. SRU P&P 5.03 – Equipment Issuance, Inventory and Accountability
- vi. PC 13652 – Kinetic Energy Projectiles and Chemical Agents Use Limitations

15. FN 303 Less Lethal Launcher and Projectiles – Category 14

a. Description/Capabilities, Quantity, and Cost

- i. FN 303 LESS LETHAL LAUNCHER: A less lethal launcher that uses compressed air to fire .68 caliber projectiles. It is designed to cause blunt trauma without causing critical injuries.
Quantity: 25
Cost: \$1,500
- ii. FN 303 PROJECTILES: Completely dedicated to reducing lethality, the basis of the FN 303 concept lies in its unique projectiles. These .68 caliber, 8.5-gram projectiles utilize a fin-stabilized polystyrene body and a non-toxic bismuth forward payload to provide more accuracy and greater effective range than other less lethal systems. The primary effect of the projectile is trauma, which directly neutralizes the aggressor.
 - 1. WASHABLE PAINT (VARIOUS COLORS): This projectile is intended for training and for marking suspects and objects with a washable colorant.
Quantity: 6,000
Cost: \$2.09 per round
 - 2. PAVA/OC: This projectile is intended as an irritant for individual suspects, point-specific targets, or small-area denial. The active ingredient is 0.5% PAVA/OC in a powder form for ease of storage, deployment, and clean-up.
Quantity: 1,200
Cost: \$3.50 per round
 - 3. CLEAR: This projectile is intended for training, point-specific impact, or suspect distraction.
Quantity: 1,200
Cost: \$2.09 per round
 - 4. INDELIBLE PAINT: This projectile is intended for marking suspects and objects with an indelible colorant for later identification, arrest, or questioning.
Quantity: 2,000
Cost: \$2.15 per round

b. Purpose and Authorized Use

To deescalate conflict. Situations for use of the less lethal weapon system may include, but are not limited to:

- i. Self-destructive, dangerous, and/or combative individuals
- ii. Riot/crowd management and civil unrest incidents
- iii. Circumstances where a tactical advantage can be obtained.
- iv. Potentially vicious animals
- v. Training exercises or approved demonstrations

Agency members are authorized to use them during the performance of their duties to protect life and property.

PC 13652 shall be followed, which describes the prohibited uses of kinetic energy projectiles and chemical agents during crowd management events.

c. Expected Life Span

FN 303 Less Lethal Launcher – Indefinite
FN 303 Projectiles – 5 years from manufacturing date

d. Fiscal Impact

Estimated annual maintenance cost is \$400 for miscellaneous parts.

e. Training

Agency members utilizing chemical agents are trained by POST less lethal instructors in a POST approved course.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 1.05 – Use of Force
- ii. G.O. 1.21 – Less Lethal Weapons System
- iii. D&C P&P 8.23 – Santa Rita Jail-Control of Firearms, Weapons, Ammunition and Armory
- iv. RTC P&P 9.02 – Safety Policy-Chemical Agents
- v. SRU P&P 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents
- vi. PC 13652 – Kinetic Energy Projectiles and Chemical Agents Use Limitations

16. Launching Cup – Category 14

a. Description/Capabilities, Quantity, and Cost

A 12-gauge gas launching cup that allows less lethal munitions to be launched from a 12-gauge shotgun when attached.

Quantity: 1

Cost: \$200

b. Purpose and Authorized Use

Used during barricaded situations and search warrants, at the discretion of the on-scene Incident Commander.

PC 13652 shall be followed, which describes the prohibited uses of kinetic energy projectiles and chemical agents during crowd management events.

c. Expected Life Span

Indefinite

d. Fiscal Impact

Estimated annual maintenance cost is \$200 for miscellaneous parts.

e. Training

Users are certified in the use of the shotguns and certified in the deployment of chemical agents.

f. Legal and Procedural Rules that Govern Each Authorized Use

- i. G.O. 1.05 – Use of Force
- ii. G.O. 1.21 – Less Lethal Weapons System

- iii. SRU P&P 3.02 – Specialized Weapons, Equipment, Munitions and Chemical Agents
- iv. RTC P&P 9.02 – Safety Policy-Chemical Agents
- v. PC 13652 – Kinetic Energy Projectiles and Chemical Agents Use Limitations

****Unless otherwise indicated, all above costs are per item**

ACSO Military Equipment
Request Form

MILITARY EQUIPMENT REQUEST FORM (A.B. 481)

1. Equipment (Quantity)	
2. Manufacturer's Product Description	
3. Capabilities	
4. Purpose	
5. Authorized Uses	
6. Expected Lifespan	
7. Initial Cost	
8. Estimated Annual Maintenance Cost	
9. Associated Necessary Training	
10. Requesting Agency Member	
11. ACSO Division/Unit	
12. Division Commander Approval	
13. Date	

If what you are requesting is of the **exact same type (make/model)** as something already on the approved ACSO Military Equipment Inventory, then only complete boxes 1, 7, 10-13.

This completed form to be forwarded to the Planning & Research/Accreditation Lieutenant.

Appendix D
ACSO Military Equipment
Tracking Sheets

ACSO Military Equipment Tracking Sheets

Per AB 481, the annual military equipment report must include the following information for each type of military equipment for the immediately preceding calendar year:

1. A summary of how the military equipment was used and its purpose.
2. A summary of any complaints or concerns received concerning the military equipment.
3. The results of any internal audits, information about violations of the military equipment use policy, and any actions taken in response.
4. The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrades, and other ongoing costs, along with the funding sources for the next calendar year.
5. The quantity of each type of military equipment possessed.
6. If the law enforcement agency intends to acquire more military equipment in the following year, the quantity and type sought.

To assist with these requirements, ACSO uses spreadsheets to track each item of military equipment, attached as Appendix D.

While much of the training that ACSO participates in with military equipment is documented, there are regular, specific unit trainings that may not be included. These trainings occur during the agency members' normal workday, thus not incurring additional expenses:

- Special Response Unit: General Team Members – 16 hours each month
- Sniper Team – 24 hours each month
- Explosive Ordnance Disposal Team – 8 hours each month
- Unmanned Aerial Systems Unit – 8 hours each month
- Crowd Management Team – 8 hours each month

MILITARY EQUIPMENT TRACKING SHEETS:

Running Totals: A cumulative sum of military equipment that is updated each time new equipment is added.

Initial Quantity: The amount of equipment we began the year with, from which the running total starts to accumulate.

Military Equipment Possessed by ACSO
